**7 ARE HELD IN S. F.  
PERPETRATORS  
OF BOMBING  
IS BELIEF**

Jailed Men Not to Be Freed,  
Is Announcement Of  
Chief White

**SLEUTHS HIDE NAMES  
OF THOSE ARRESTED**

Blast In Oakland Some Weeks  
Ago Due to Plot, Says  
District Attorney

OAKLAND, July 28.—A ten-inch bomb today was found on the doorstep of Charles D. Gillipie's home on Porter street. A note was found which read: "It is for your wife's sake that I am doing this."

SAN FRANCISCO, July 28.—Chief of Police White, Captain Matheson and District Attorney Fickert today announced that they believed they have in custody the men who were responsible for the bomb outrage. No names were mentioned. All three agree that the explosion was not due to an anarchist plot.

Chief White issued a statement declaring that all seven of the men now in custody would be held.

Simultaneously District Attorney Fickert announced that he has evidence that the bomb was intended to explode in the ranks until it was known that the railroad employees were marching in the preparedness parade. He denied that Thomas Mooney, who was arrested last night, was in Mrs. Mooney's studio when the explosion occurred.

Attorney Fickert declared that the explosion some weeks ago which wrecked the smoking car of a Southern Pacific train at the Oakland Sixteenth street station was the result of a plot and not accident.

**LAURENCE GINNELL ON  
TRIAL FOR VIOLATING  
REALM DEFENSE ACT**

LONDON, July 28.—Laurence Ginnell, author, humanitarian and prominent Irish member of the British parliament, was placed on trial here today by his government, charged with violating the Defense of the Realm Act. Penalties for conviction of the violation of this act range from a ten shilling fine to imprisonment.

Ginnell was arrested by order of General Lloyd. Information came to the office that Ginnell had visited a detention camp at Knutsford near Manchester under an assumed name and there spent some time talking in a suspicious manner with Irish rebel prisoners.

Ginnell has long been known for his sympathy with the Irish cause. He has frequently and openly criticized the government for not giving Ireland home rule. He was particularly bitter in denouncing the government for what he termed its failure to deal more leniently with the Irish rebels following the Easter rebellion.

Ginnell is a member from County Westmeath, a hotbed of Irish rebellion, from which he was elected in 1906. He is a self educated man and a fine natural orator. He was one of the founders of the Irish Literary Society of London and is the author of several books dealing with Irish questions.

**NIAGARA FALLS FIRST  
STOP TO BE MADE BY  
HUGHES ON CAMPAIGN**

BRIDGEHAMPTON, July 28.—Niagara Falls will be the first stop in Chas. E. Hughes' swing around the circle, he today announced. Detroit will be the second. Hughes will leave New York August 5.

**DASH OF DEUTSCHLAND  
AGAIN RUMORED NEAR**

BALTIMORE, July 28.—The Deutschland today prepared to take on a pilot from the Maryland Pilot's Association. The German organization's own man who brought the boat up the river was out of town and not immediately available for service. With a twenty-four-hour crew aboard the tug Timmons it was indicated that the stay of the Deutschland would not be long.

**'DITCH' TOLLS SLACK**

WASHINGTON, July 28.—Panama canal tolls were \$4,286,551 less than expenses in the year which ended May 31.

**Speed Cop Captures  
Fred Mace and He,  
Mace, Pays 10 Scads**

Film Funster's Plea That His  
Speedometer Was On the  
Blink Unavailing

Fred Mace, movie star, who is pictured on advertising literature as leaning over the side of an automobile looking back with a broad smile and bulging eyes, looking for speed cops, sure found one yesterday afternoon in Santa Ana. Motor Cop Cook is the minion of the law he met up with, and as a result of the meeting the movie man called at the city hall and left a \$10 bill as an amend for his indiscretion in violating the speed ordinance of Santa Ana, made and provided for movie stars, lesser lights and the common herd.

Mace is with the Keystone company, which is at present engaged in procuring a film at Balboa. He was on his way to Los Angeles when he passed through the motor cop's trap on North Main street yesterday afternoon. Cook caught him at 35 miles an hour.

"Your Honor, my speedometer is on the blink—it doesn't register correctly," said the film star when he appeared before City Recorder Heathman, and attempted to excuse himself by attributing the excessive speed to deceit by the speedometer.

"You know, Your Honor, it is against my principle to speed—the only time I don't object to speed is when the movie machine is recording my actions for the delight of the public—and I would not knowingly even bend, let alone fracture, the speed regulations of this charming city."

"Ten dollars or five days," was City Recorder Heathman's reply to the eloquent dissertation by the popular star in his efforts to touch the sympathetic part of the make-up of the city's adjudicator of troubles, small and large.

Mace "pungled" with a smile.

**NEW GAINS MADE  
BY BRITISH AND  
RUSS ON FOES**

BERLIN, July 28.—"The enemy cannot boast that it has progressed," said today's official statement, referring to the British attacks at Pozieres. "Enemy attacks at Pozieres and at Fouriesux have broken down."

LONDON, July 28.—The British troops have driven remnants of the famous Brandenburgers out of the Delville woods. Gen. Sir Douglas Haig reported today. One hundred and sixty-three prisoners were taken. Two counter-attacks were repulsed.

Dispatches from the Petrograd war office today stated that the Russian advance continues along the Stonieki and Boldourovka rivers. Gains also are reported in the Caucasus.

**U. S. HEADQUARTERS AT  
COLUMBUS MUD SHACK**

COLUMBUS, N. M., July 28.—Possibly the most insignificant structure in Columbus camp today is used as the U. S. base headquarters and the office of Major C. S. Farnsworth, commandant of the base. It is a V-shaped building of mud, or adobe, with a canvas roof. The flag floating over it is the only thing to distinguish it as headquarters.

The ceilings are low and the few windows badly chinked with mud. When the wind blows the major turns up his collar and puts on his goggles. On the earth pine boards have been laid for floors. Adobe, unadorned, forms the walls of the office. A sheet iron stove is set in a box of sand. The walls are covered with detail maps of Mexico and Chihuahua, showing the truck routes and water holes. In the outer office alert orderlies wait for orders to rush messages to the wireless station or telegraph office.

**WHEEL BREAKS; 3 HURT**

SAN JOSE, Cal., July 28.—By the collapse of a wheel on the automobile in which they were riding, three men were badly injured on the state highway a mile south of here shortly after midnight.

George Jones, proprietor of a Watsonville garage, had both legs broken and suffered internal injuries. Earl E. Hoffman, an auto agent, Salinas, and Robert Allison, Watsonville, were severely hurt.

**DEATH'S SHADOW  
NEAR FOR FOUR  
IN ACCIDENTS  
ON HIGHWAYS**

1 Man Seriously Maimed, Another Has Nose Broken,  
2 Escape Injuries

Selecting automobiles as the agents of his desired self-destruction, Earl Ceideman of Anaheim today threw himself in front of three different automobiles on West Chapman street near the County Hospital. Two of the machines passed over him, one over his leg and the other over his back. The man was taken to the County Hospital by the last machine that went over him. Dr. Zaiser stated that the man is not seriously hurt. Ceideman told the doctor that he was tired of living. Ceideman's mother killed herself in Salem, Ore., three years ago.

(Special to the Register)  
FULLERTON, July 28.—Hurling their motorcycle over the highway at an alleged terrific rate of speed, Frank Miller and Joe Fallert were injured, Miller seriously, when their mount skidded on striking a patch of gravel on a turn of the road.

Miller is at the Anaheim Sanitarium suffering from a double fracture of the right collar bone, a fractured right wrist, bruises of the face and head and possible concussion of the brain.

Fallert escaped with a broken nose and various bruises.

The two men, Miller driving and Fallert on the rear of the machine, were en route to Anaheim.

Hitting the first turn, south of this city, they struck the gravel spot, skidded and were hurled violently to the pavement.

The accident occurred shortly after 5 o'clock yesterday afternoon.

The men declare that they were traveling at 25 miles an hour, but some who have investigated are led to believe that they must have been traveling 50 miles an hour.

Miller is being attended by Dr. Wickett. It will be several days before it can be determined whether he has sustained an injury of the brain.

Miller early last night was thought to be fatally injured. Today, however, his condition is considerably improved.

**Man and Wife Hurl'd  
From Buggy By Auto**

Hurled from the buggy in which they were riding, Mr. and Mrs. J. L. Nichols of Westminster narrowly escaped death last night when their vehicle was struck by an Anaheim man's automobile.

The accident occurred while Mr. and Mrs. Nichols were returning from prayer meeting. Driving on the boulevard west of Garden Grove, a light at the rear of their buggy, the couple were suddenly pitched out when the auto struck the rear of their vehicle.

Miraculously, Mr. and Mrs. Nichols escaped with a few very slight bruises. The Anaheim man took the couple to their home.

The buggy was wrecked. Nichols declines to reveal the name of the Anaheim man.

**BRANDEIS, GOETHALS,  
DOWLING ON MEXICO  
PARLEY BOARD, REPORT**

WASHINGTON, July 28.—It is today reported that the President has selected the following for the joint committee to investigate the Mexican-American relations: Supreme Court Justice Brandeis, General Goethals, Judge Victor J. Dowling of New York.

Brandeis was named according to the report, because of his experience as an investigator. General Goethals, because he is considered an expert not only on military phases to be handled, but in constructive work of the kind the de facto government is understood to wish to take.

Judge Dowling was named because he is a Catholic, it is reported.

**OKUMA'S RESIGNATION  
FROM CABINET NEAR**

TOKIO, July 28.—The resignation of Premier Okuma from the cabinet today is imminent. Field Marshal Seiki Teruchi, it is generally believed, will be his successor.

**Almost Nagged Into  
Grave, Alleges Man  
Suing for Divorce**

Says That One Time In Three  
and Half Hour Siege He  
Was Close to Death

Nagged, scolded, harangued, with his heart fluttering from sheer exhaustion, John W. Buckmaster barely escaped the grave. The nearest his wife ever came to literally talking him to death was in a three and a half hour siege. For a time Buckmaster certainly thought his heart was going back on him.

The divorce action was filed here by Attorney Lee Utley of Los Angeles for Buckmaster.

Hannah W. Buckmaster of Casey, Ia., is the defendant in the divorce action. The couple married in Guthrie county, Ia., in 1911.

If Buckmaster's complaint tells the truth, Mrs. Buckmaster's tongue either holds the lashing record for the state of Iowa or Buckmaster is a man of tender sensibilities. Literally, actually and not metaphorically or tentatively, Buckmaster was all but talked to death. He probably lies awake nights yet wondering how he escaped with his life.

Buckmaster says that his wife's nagging, scolding and fault-finding constituted cruelty. More, it was agony. It was a positive detriment to his health. It affected his heart. His wife on occasions may have promised to give him a rest. But she didn't. She threatened him, and nagged him, and he just had to take it.

Mrs. Buckmaster had a daughter who went to school. Buckmaster went to the school to get the girl. Imagine his chagrin when his wife ordered him not to do it any more. She said she wasn't going to have the neighbors saying that her daughter was running around with her husband.

But the climax came on a day—or was it a night?—when Mrs. Buckmaster was wound up for fair. Buckmaster's health was breaking down, and he was not fit for any Verduin-like assaults, but he couldn't get away from it. His wife started in. She kept it up, and she kept it up, and still she did not let up. For three and a half mortal hours her tongue lashed him to a frazzle. He was worn out utterly. His weakened heart could hardly survive. Buckmaster surely thought he was going to die before she ceased firing.

But he managed to live through it. He got to California, where it is likely a change of climate has helped him.

A strange feature of the divorce complaint is that it is seeking divorce upon two grounds, one of cruelty and the other of desertion. Buckmaster alleges that the wife deserted him.

**DRIVE VILLA IN  
TRAP; CAPTURE  
IMMINENT**

MEXICO CITY, July 28.—Villa is being driven into a trap. Ten thousand Carranzistas are driving him. His capture is imminent. This announcement today is in reply to rumors from the United States border that the bandit is moving toward Torreon.

**WILSON CONFERS WITH  
KERN AND POMERENE  
ON CHILD LABOR BILL**

WASHINGTON, July 28.—Anxiety about the administration tail pinned to the Child Labor bill by Senator Borah today resulted in a conference with the President by Leader Kern and Senator Pomerene.

The administration leaders do not want the immigration question to come up in the Senate at this time. After the conference the President and Kern expressed the hope and the belief that the Borah amendment would not be pressed.

Ways and means for keeping the immigration question out of the Senate at this time were discussed. Senator Kern set September 1 as the latest opinion on the date of adjournment.

**WALSH RESCUES GIRLS**

CHICAGO, July 28.—Ed. Walsh of the Chicago White Sox last night turned lifesaver and rescued two drowning girls from the lake. Afterward he declined to talk about his act, and said he didn't even know the names of the girls.

**DENY BREMEN CAPTURED**

ST. JOHN, N. B., July 28.—J. D. Hazen, minister of marine and fisheries, today denied reports that the German undersea liner Bremen had been captured and taken into Halifax.

**ENTIRE EAST IN  
GRIP OF HEAT  
WAVE KILLING  
YOUNG, OLD**

No Hope Held Out by Weather  
Bureau; Atlantic Coast  
Faces Suffering

CHICAGO, July 28.—While the middle west today sweltered in a blazing sun, Winnemucca, Nev., was the coolest spot in the country. The temperature there was thirty-six.

There were sixty deaths during twenty-four hours in the Middle West. The temperature at St. Louis is 109.

ST. LOUIS, July 28.—Two died and three were prostrated today as a result of the terrific heat that swept the city. Street temperatures averaged 109.

WASHINGTON, July 28.—The Weather Bureau today held out but little hope of relief from the Middle West heat.

There is no hope for the Atlantic Seaboard and there will be 100-degree weather along the coast, the bureau declared. This will mean even greater suffering than has been experienced in the Middle West as the humidity is very low.

CLEVELAND, O., July 28.—Eleven more lives, ten of them babies, were sacrificed to the heat yesterday.

CHICAGO, July 28.—Following a night that was smothering with heat and lack of air, Chicago awoke sleepless and exhausted, to battle with the hottest July day in five years. The official temperature on the federal observation tower was 100 and a fraction degrees, but down in the streets thermometers showed 105 and in the suburbs 108 degrees was reported.

Up to 8 o'clock last night the police have records of eight deaths of adults due directly to heat strokes. The coroner's report shows that thirty-one babies died of heat.

Hundreds of prostrations and numerous deaths were reported in nearby cities.

Deaths were reported in Gary, Ind.; one; Pontiac, Ill.; two; Joliet, two; St. Louis, five.

**TEUTONS SHOOT SEA  
CAPTAIN FOR RAMMING  
UNDERSEA BOAT U-33**

BERLIN, July 28.—Captain Charles Fryatt of the Merchant steamer Brussels was executed for attempting to ram a German U-boat. He was captured and later shot, it became known today.

Fryatt was executed for a "franc tireur" crime against a German undersea force. The death sentence was imposed because, although Fryatt did not belong to the British naval forces, he, on March 28, 1915, endeavored to ram the German submarine U-33.

Fryatt, the first officer and engineer received a gold watch from the British Admiralty for "brave conduct" and it was mentioned in the House of Commons.

**STRIKEBREAKER KILLED  
AS N. Y. STREET CAR  
BRAKES FAIL TO WORK**

NEW YORK, July 28.—Brakes failed to work on a car manned by strikebreakers at One Hundred and Seventy-seventh street and the car crashed down grade. One strikebreaker was killed and several were injured.

The accident followed a number of minor clashes in which many cars were put out of action.

Several hundred police reserves are on duty while officials are seeking to settle the strike.

Police Commissioner Atwood today notified both strikers and employers that they must immediately disperse with gangsters. The police believe that the hiring of gunmen of all sorts, belonging to scores of different gangs, will result in a reign of terror.

**'OWL' KILLS TWO**

LOS ANGELES, July 28.—Twolives were the toll of another grade-crossing accident yesterday when the Southern Pacific Owl train crashed into an auto at Picoima station in the San Fernando valley.

**Phew! Here Is Tale  
About a Skunk and  
How He Was Slain**

They Fired 12 Shots At the  
Beast; Meanwhile, the  
City Slumbered

Here's a tale of a skunk. The scene is laid in the Crown Stage depot, 505 North Main. Dramatis personae: J. P. Heidbreder, night man at the depot, and Marx Bandy, jitneur.

Time: 2 a. m. All is quiet. Nothing stabs the almost death-like silence. The city is sleeping.

Suddenly Heidbreder hears a noise. He begins an investigation, searching the nooks and crannies of the stage office. Then he goes out back, where the jitneys are parked. Bandy is there. Suddenly,

"It's a skunk!" yells Bandy. The yell frightens the animal and it dashes into the office. Heidbreder arms himself with a .45 caliber "gat" and Bandy with a club.

The hunt is on. Thither and yon rages the battle between pursuers and pursued. Boxes are turned over, jitneys run into. A frightful din obtains.

At last the odoriferous mammal is driven into a corner. "Bang! Bang! Bang! Bang! Bang! Bang!"

It is Heidbreder's revolver speaking. Not satisfied that the beast had been slaughtered, Heidbreder races back to the office for artillery reinforcements.

Again repairing to the scene of battle he once more trains his weapon into the dark corner where the object of attack lies lurking. "Bang! Bang! Bang! Bang! Bang! Bang!"

It is the second revolver speaking. Finally all is quiet again. All that reigns is a most pronounced and unmistakable something that floats on the air of the night. The city sleeps. The skunk is dead.

**POSTPONE CO. L  
BENEFIT UNTIL  
MONDAY NIGHT**

The entertainment for the benefit of the needy families of members of Company L today was postponed from tonight until Monday night. It will be given at Elks' Hall.

Captain J. L. McBride was scheduled to be asked to make a speech at the entertainment tonight. As he will not arrive in this city until tomorrow evening, the postponement was decided upon. It is also expected that the other discharged members of Company L will be here Monday night and they will be asked to act as ushers at the entertainment.

Tickets purchased for tonight will be honored Monday night. Tickets are on sale at Padgham's jewelry store.

Those who will take part are: Maurice Phillips, Miss Louise Montgomery, R. R. Miles, Raymond Beebe, Warren Fletcher and Gladys Thomas.

**U. S. TRUCKS ON LINE  
O. K. BUT ROADS BAD,  
OPINION OF SHEPHERD**

BY WILLIAM G. SHEPHERD  
MERCEDES, Texas, July 28.—The American army of 50,000 guardsmen lies as helpless in the muddy lowland Rio Grande valley as an angle worm in a jug of sorghum molasses.

In a dispatch car today I rode for fifty miles along the front and the folly of equipping our army trucks after the European fashion and not having the European roads was seen at every half-mile.

Trucks were stuck to their axles in mud, blocking the progress of the troops in a manner which would spell defeat in a crisis anywhere.

**MEXICO TO BE MAIN  
REPUBLICAN ISSUE IN  
ATTACK ON WILSON**

NEW YORK, July 28.—The first formal indication that Mexico will be the main issue upon which the Republicans will attack President Wilson's campaign, today was issued by Chairman Wilcox. In statements the latter denied that the Republican party's criticism of the handling of the Mexican policy was "dictated by any sinister influence," and bitterly assailed President Wilson's "maladministration" of affairs as concerns Mexico.

**TO SELL TWO COAST SHIPS**

SEATTLE, Wash., July 28.—The steamers City of Pueblo, 2624 tons, and Tampico, 2133 tons, are to be sent to the Atlantic coast and sold, according to the announcement of the Pacific Coast Steamship company.

**BOY, 4, IS SLAIN.  
MOTHER HURT  
AS WARPLANE  
RUNS AMUCK  
IN CROWD**

Army Aero Becomes Unmanageable, Dives Into Throng  
Of Autoists

**PARENT SEES LIFE OF  
HER SON CRUSHED OUT**

Airman Was Starting Return  
Dash to San Diego When  
Horror Occurred

ONTARIO, Cal., July 28.—Harold Stoebe, 4, was killed, his mother, Mrs. A. C. Stoebe, was seriously injured, four automobiles were wrecked and overturned when Lieut. S. H. Wheeler in a warplane, attempting to rise today, crashed into a line of motorist spectators.

Wheeler landed yesterday afternoon in a fog. He was attempting a flight from Los Angeles to San Diego when he was lost in the fog.

He started back at 9:30 a. m. today. His plane became unmanageable and it crashed into the autos.

Mrs. Stoebe was standing between two of the machines which were overturned and she was seriously injured. The child was instantly killed.

On Return Flight  
Lieutenant Wheeler left San Diego yesterday in company with three other fliers and arrived at Dominguez field, near Los Angeles. The four started to return and Wheeler came down at Ontario because he was lost in a fog.

A large crowd gathered to witness his departure this morning. The giant bird sped down the field.

The officer was forced to veer his plane to avert some trees shortly after leaving the ground, approaching a line of parked cars.

The spectators began to run from the automobiles which were overturned at the impact.

Lieutenant Wheeler was uninjured. Mrs. Stoebe was attempting to reach her 4-year-old son when she saw that she was too late. It was then that she was struck.

**CENTRAL POWERS WILL  
GRANT WILSON'S PLEA  
FOR POLE AID, BELIEF**

WASHINGTON, July 28.—Austro-Hungary, co-operating with Germany, will grant President Wilson's wishes in the matter of Polish relief, in the opinion of Foreign Minister Burian today. Ambassador Penfield presented the President's appeal to Ambassador Burian and the latter strongly urged that President Wilson's wishes be granted.

Ambassador Penfield strongly urged that the President's wishes be heeded and Ambassador Burian expressed sympathy with his views, adding his unofficial belief that Austro-Hungary, working with Germany, would grant all that was desired. He said he would lay the matter before the emperor immediately.

**FOE VERDUN MASTERY  
ROBS FRENCH OF BIG  
CHANCE TO AID DRIVE**

BY CARL W. ACKERMAN  
(United Press Staff Correspondent)  
WITH THE GERMAN BEFORE VERDUN, July 28.—Germany's mastery here has robbed the French of their greatest chance to co-operate in the allied drive.

If the positions held by the French had not been under attack by the Germans the troops under the tricolor could have hammered their way simultaneously ahead with the British thrust. But Germany now dominates the city.

German officers say that the main thing now is not whether Germany is to take Verdun but that the Teutonic troops remain as masters of the battlefield.

In traveling all along the German front and talking with officers and men, I find a different opinion as to the war's end from that entertained elsewhere.

The belief of all was best expressed tonight by the grandson of General Von Steuben, the Prussian hero of the revolutionary war, who said: "The war will last long."

**SIR ROGER TO DIE**

LONDON, July 28.—When the court of criminal appeal met today to hear a "possible application" in behalf of Roger Casement, who was sentenced to death for treason in connection with the recent Dublin uprising, it was found that the defense had abandoned any contemplated action. Unless the king intervenes, Casement will be hanged August 3.

A PROGRAM EVERY CHILD SHOULD SEE.

## WEST END THEATER

Santa Ana's Finest Amusement House--Fire Proof and Sanitary

## STEPS TO AVERT RAIL STRIKE, LOCAL PLAN

CLEVELAND, July 28.—The four railroad brotherhoods today notified the railroad committee that they were prepared to resume conferences.

The influence of the Santa Ana Chamber of Commerce and Merchants and Manufacturers' Association will co-operate with that of other similar organizations throughout the United States in an effort to avoid the threatened strike of railroad men.

A joint meeting of the directors of the two organizations was held at the Chamber of Commerce rooms this morning, the meeting being called for the purpose of discussing the passing of resolutions, urging that the difficulties be settled by arbitration.

The resolution will be forwarded to representatives in Congress recommending that they use their best efforts in inducing the railroad employees to submit their cause for adjustment by a board of arbitration.

No definite action was taken this morning. The secretaries of the Chambers of Commerce of Los Angeles, Riverside, San Bernardino and Orange counties will meet in Los Angeles tomorrow, and Secretary Metzgar was directed to discuss the matter with other secretaries, and report Monday at another joint meeting of the directors, to be held either in the afternoon or evening.

The business and farming interests of this section are deeply concerned over the probability of a strike. Experiences of last winter when train service was tied up for only three or four days were a practical demonstration of what might result should the lines be tied up for a prolonged period while the railroad employees and the railroad magnates are fighting out their differences.

If the strike is called it will be along about the middle of August or first of September, and perishable crops of this section would suffer, to say nothing of the inconvenience that would be occasioned to the general public.

The big sugar factories will be in full operation at that time, and they are dependent on the railroads for the transportation of the major portion of their tonnage of beets from the fields to the mills. Between 800 and 1000 carloads of beets are delivered to the factories during the season, it being estimated that between 50 and 60 per cent of the crop is transported by the railroad lines.

Oranges, lemons—every crop that is produced in commercial quantities and entering the markets in the latter part of the summer—would suffer from a tie-up on the railroads.

As the full import of the serious situation which would develop comes impressed upon the people of the country, the more active they become. Public opinion is being aroused, and every effort will be made to impress upon the minds of the railroad employees that their threatened action would work severe hardship on the entire country.

### WELL SLIPS 20 FEET; WATER REMAINS IN IT

MILWAUKEE.—A well situated on the bluffs that have been sliding toward the Missouri Pacific tracks in the lower yards, near the Kerford rock crusher, has moved twenty feet with the slide since last Monday, but remains in good condition and is being used regularly. Changing location has not harmed the supply of water.

### HEN LABELED EXHIBIT AT TRIAL LAYS EGG

PORTLAND, Ore.—Maude, a white Leghorn hen, was in District Judge Bell's court as Exhibit A in a suit over her ownership and that of two other biddies and a cockerel. Suddenly there smote the air a shrill "cut-a-cut." It was Maude cackling and she kept it up. "Baillif, kindly remove the exhibit," ordered the judge. The baillif approached Maude's coop. "Your honor," he shouted, "look!" and he held up a snowy white egg. "Maude has laid it."

### BRIDE OF YEAR SETS HERSELF AFIRE; DIES

BALTIMORE.—Mrs. Mamie Geckler, nineteen years old, a bride of only one year, wife of August Geckler, who set herself on fire at her home following a minor domestic quarrel, died in St. Joseph's hospital. The husband is in the hospital suffering from burns due to his attempt to save his wife.

### PAJAMAS ARE UNIFORM OF U. S. WAR RECRUITS

WASHINGTON.—With the aid of searchlights, autoists have discovered that nighties are not worn at the national service school camp at Chevy Chase, under the direction of the women's section of the navy league. The nocturnal uniform is pajamas. Passing automobilists who flash their flashlights into the camp grounds know.

Camp officials called on the Maryland police to prevent autoists and motorcyclists from turning their high-powered lights on the camp in the future.

## AUTO DITCHED; FOUR INJURED

Accident Occurs Two Miles East of Seal Beach—Bather Drops Dead

SEAL BEACH, July 28.—Four persons were more or less seriously injured early yesterday morning, when the automobile in which they were riding left the road and ran into a ditch by the side of the highway, where it was partially wrecked.

Miss Hazel Sheriff of Los Angeles received a severe scalp wound, which necessitated several stitches by a Long Beach physician. Miss Emma Addy, M. M. Best and Alexander Kidzie, all of Los Angeles, received cuts and bruises. The accident occurred two miles east of Seal Beach on the Seal Beach-Santa Ana boulevard.

Dies Suddenly  
 Joseph Chambers, 63 years old, of No. 1923 East Vernon avenue, Los Angeles, dropped dead late yesterday afternoon as he emerged from a dip in

**HAVE ROSY CHEEKS AND FEEL FRESH AS A DAISY—TRY THIS!**

[Says] "glass of hot water with phosphate before breakfast washes out poisons."

To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try inside-bathing every morning for one week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, also those whose skin is sallow and complexion pallid, are assured that one week of inside-bathing will have them both looking and feeling better in every way.

the surf. City Marshal Neushwanger was on the scene shortly following the occurrence, and notified the relatives of the victim, who are visiting in this city.

It is believed that Mr. Chambers died from a stroke of apoplexy, brought on by the shock of the cold water. He dropped dead on the beach in his bathing suit as he was on his way to the dressing room in the bathroom.

**For Bad Checks.**  
 A. J. Dean, said to be wanted at Long Beach and other Southern California cities for issuing fictitious checks, was arrested here yesterday by Detective Earl Winters of Long Beach. Dean is said to have operated under the aliases of A. J. Meyers, Ray Griswold, O. W. Wiley and other false names.

## SELF-GIVEN WOUNDS CAUSE HIS DEATH

ANAHEIM, July 28.—William Hildebrand's desire to die was fulfilled Wednesday night at the Anaheim Sanitarium. Hildebrand, who was an aged rancher, was reputed to be wealthy.

Some time ago his wife died. Loneliness came to him and he grieved over her death.

Then, a week ago, he determined to end his life. Taking a shotgun he attempted to hold it to his breast and discharge it. His attempt failed and he succeeded only in tearing away part of his clothing. The entire charge of shot lodged in the ceiling.

Persisting in his efforts, Hildebrand held the weapon to his head. This time he was successful. The shot tore a gaping hole in the lower part of the face.

A neighbor found the old man, lying unconscious. He was removed to the Anaheim Sanitarium and there physicians began a fight to save his life. Hildebrand, they said at first, had an even chance for recovery. But he grew worse. Most of the time, they said, he was unconscious. Wednesday the end came and Hildebrand's desire to die was fulfilled.

Funeral services will be in charge of Backs and Terry and burial will be in Loma Vista cemetery. No inquest will be held.

### ENGLAND ISSUES CALL FOR OVERSEAS COUNCIL

LONDON.—England has invited the parliaments of the various Overseas dominions to send representatives to visit Great Britain in July to see the efforts that are being made in the prosecution of the war and to exchange opinions on war questions. The numbers invited are: Australia, ten; Canada, ten; South Africa, six; New Zealand, four; Newfoundland, two.

## P. E. BIDS FOR CITRUS HAULS

Electric Line and Santa Fe In Competition At Corona Now

In view of the hope of the P. E. that it may some day get freight connection with Orange so that it can haul freight out and turn it over to the S. P., the following from the Riverside Enterprise is interesting.

"A strong bid is being made by the Pacific Electric railway for the hauling of the Corona orange and lemon crops to Colton or Bloomington. At those stations the cars are transferred to the Salt Lake or Southern Pacific tracks to be taken east."

"Only the nightwatchman and officials of the electric road realize the great number of cars of citrus fruit that have been drawn through the city after 10 o'clock at night, as the contract entered into between the city council and the railroad officials several years ago was such that the freight drawn by electricity can only be taken through when most people were asleep."

"At Corona the railroad is connected with two packing houses. From the Call estate many lemons are now being received. Most all such shipments are taken through Riverside to Bloomington to be turned over to the Southern Pacific."

"Trainmaster Bell says the electric road is working under a handicap in competition for freight business to and from Corona because of the restriction in the matter of hours as to when it may be taken through Riverside. The Santa Fe steam road operates freight trains to Corona at all times of the day and night."

"All over the system through the orange belt the P. E. railroad is now handling considerable freight. From the Uplands district oranges are delivered to the Southern Pacific at Pomona. Many cars have been handled during the past season from the section on the Los Angeles line west from San Bernardino to Alta Loma. This has been taken to Colton for changing from the electric to the steam road."

"About Highland the orange growers have turned a large part of their crop to the electric road. Near Redlands the new Crown Jewel packing house is reached only by the new road."

"During the season when raisins are being cured in the Fontana district, carload after carload is drawn by the road to Bloomington. "With a connecting track from the Colton avenue line to the Riverside, Rialto & Pacific road the Pacific Electric will be in a good position to handle the Crestmore freight when the occasion arises."

### MAN DENIES IDENTITY TO ESCAPE JURY DUTY

ST. LOUIS.—After a jury in the Probate Court had sat in a case and had been released from further duty, Judge Holtcamp called Ferdinand H. Manger, one of the jurors, to the bench and said to him: "I would have excused you from service on this jury if you had not three times denied your identity to a deputy sheriff when he went to serve the summons on you."

Manger admitted that he had attempted to conceal his identity when a deputy tried to serve him at the Union Station lunchroom, of which he is manager. His jury service took up only an hour of his time.

## SUGAR FACTORY IN PROSPECT AT SAN BERNARDINO

C. A. Johnson of Holly Sugar Co. In Conference With San Bernardino People

C. A. Johnson of Santa Ana and Huntington Beach, representing the Holly Sugar Company, has been in San Bernardino for several days looking into the sugar factory possibilities of the San Bernardino valley.

Mr. Johnson was interested in San Bernardino through E. D. Roberts, ex-state treasurer, now first vice president of the First National Bank of Los Angeles, as well as president of the string of banks in the San Bernardino valley. He went to Pinecrest to talk it over with George M. Cooley, and in town took up the matter with Secretary Knedler, and while everything is as yet in an embryo state, the chances of a beet sugar factory in the San Bernardino valley may be said to be good.

"The moist lands of this valley would produce beets enormously," said Mr. Cooley. "Not only would they prove a most profitable crop in themselves, but they would introduce another crop by means of which ranchers can rotate crops, benefit their soil, increase their revenue and help along the general prosperity of the valley. Beets, potatoes, alfalfa and other crops rotated, by means of which farmers will have part of their lands in each crop every year, would add to the certainty of good returns. Diversified farming is the kind that pays best, and when the farmer is prosperous, everybody else is sure to be."

Mr. Cooley is enthusiastic over the prospect of the sugar factory and said yesterday that if necessary he would come down from the Crest to help along the new enterprise.

## BIGGEST POULTRY SHOW EVER AT THE STATE FAIR

SACRAMENTO, July 28.—The big Poultry building on the State Fair grounds is being doubled in size. The cement work has been completed, and the sides are up. The roof is on and the work of completion is well under way. It will be completed in a week or ten days.

Among the new features coming with this addition is a department for ducks, which is equipped with cement tanks in which they can disport themselves and keep cool. A court has been left inside the building that will be utilized to still further improve the conditions for exhibitors and visitors.

The poultry displays at the fair have been increasing to such an extent the past few years that even this large addition to the facilities for accommodating them will be none too large.

## Biggest Merchandising Event

112 West Fourth Street

## BRAVE GIRL IS HEROINE, NEAR DROWNING

Los Angeles Bathers Have Narrow Escape From Death At Seal Beach

SEAL BEACH, July 28.—A near-drowning tragedy occurred shortly before noon yesterday, when a heavy undertow carried three visitors out into deep water. They were rescued after a thrilling experience by Charles James and C. M. Brown, who set out in a small surf skiff, and Seal Beach Lifeguard James Gomez, who was in the act of rescuing another woman from the rip tide when the alarm of the perilous predicament of the three women was spread over the beach.

Miss Carol Treadway, 18 years old, of No. 2444 West Fifty-third street, Los Angeles, was the most seriously affected of the trio of women rescued from the surf. Physicians extended but little hope for the recovery of the Los Angeles girl for the first fifteen minutes after she was removed from the water. Constant work, however, brought signs of life to Miss Treadway's face, just as the fire chief from the Long Beach department arrived on the scene with a pulmonator.

**Saves Lives**  
Miss Treadway, in company with her aunt, Mrs. H. Ashton, and cousin, Miss Helen Ashton, had ventured but a few feet into the surf today when a strong rip tide swept them out nearly fifty yards before they realized what had occurred. Miss Ashton was the only member of the trio who could swim. With the water several feet over their heads, Miss Ashton pluckily kept the struggling women above water, crying loudly for help at the same time.

Miss Treadway, exhausted from her efforts to keep afloat, fainted and sank. As she rose, Miss Ashton, with Mrs. Ashton clinging to her shoulder, grabbed her cousin and held her head out until the arrival of the two men in the surfboat.

Lifeguard Gomez, who had just carried in a woman who had succumbed to the grip of the ground swell, responded to the call for help at the same time, and swam to the rescue of the stranded three. The woman rescued first by the lifeguard was not in a serious condition and was soon able to leave the beach under the escort of another woman bather.

Owing to the condition of Miss Treadway's lungs, which had inhaled much salt water, and her weak heart, which failed her when she saw her plight in the deep water, the life of the young woman was in great danger.

COLONEL J. R. KEAN, U. S. A., is director of military relief, American Red Cross. It is his duty to organize base hospital units throughout the United States, especially near the border, to care for the wounded troops who have passed beyond the first aid stage. He has already organized twenty of these units in the larger cities of the country.

## SAYS HARBISON'S NOMINATION UP TO TWO COUNTIES

Union Reports Ed. Hinkle Likely to Get Strong Support In San Diego

The San Diego Union sizes up the race for the Republican nomination for congressman between R. C. Harbison of San Bernardino and Ed Hinkle of San Diego as follows:

"Politicians point to Orange and Imperial counties as the battle ground of the coming campaign both before and after the primaries. Ed Hinkle probably will receive a strong Republican vote in San Diego, while 'Fightin' Bob' Harbison's friends claim San Bernardino and Riverside county solid for him. San Diego county's vote equals that of the other two counties and as a result Imperial and Orange will cast the decisive ballot. If Harbison should be nominated, the same situation will apply in the contest between him and Kettner."

"Senator M. L. Ward returned yesterday from a vacation in the mountains and at once called a joint meeting of the Republican League and the Republican county central committee to discuss preliminary measures for a precinct organization which will work for the election of Harbison to congress and for the success of the rest of the ticket in general."

So far as can be learned, Republicans in Orange county are counting upon Harbison getting practically the solid Republican vote in this county for the Republican nomination.

The San Diego Union tells of Attorney Crouch's plan of campaign for the Democratic nomination as follows:

"Attorney C. C. Crouch has slipped moccasins over his feet for his fight against Kettner. His campaign manager, 'Little Phil Sheridan' Burch, is planning a house-to-house canvass for his candidate."

"Crouch is adapted to this system of vote getting. He dresses well and although small of stature, he can wear a long, cutaway coat with unusual dignity. He smiles charmingly and he has cultivated address in sympathetic calls at homes of San Diegans."

"None of Kettner's friends will admit that Crouch's quiet activities give them the least concern and they declare that the only benefit Crouch himself expects to derive from the campaign is the publicity that will come to him as an attorney."

**TO SOUND KETTNER**  
The San Diego Tribune has this:

"According to report the 'dry' element of San Diego is to sound Congressman Kettner on his stand for national prohibition. Charles C. Crouch, who is contesting for the Democratic nomination, openly declares if elected he would support a nation-wide prohibition bill in congress."

Crouch and his lieutenants propose a house to house canvass on that issue. Congressmen Kettner's local backers say he will remain in Washington until congress adjourns and that if that is not before the primary, August 29, he will declare himself in due time."

"It is claimed the district is 'dry' by a large majority and that should Crouch win the Democratic nomination from Kettner three avowed 'dry' candidates would be pitted against each other at the November election, as R. C. Harbison, who expects the Republican nomination, has declared for prohibition."

"However, two San Diego candidates are expected to dodge the wet and dry issue. They are E. C. Hinkle, himself expects to derive from the campaign is the publicity that will come to him as an attorney."

"The liquor question bids fair to be deeply infused in the remainder of the campaign."

**22 PUPILS NEVER MISS ONE DAY IN 7 YEARS**

MARYSVILLE, Kan. — Twenty-two pupils of the rural schools of Marshall county have not missed a single day's attendance in seven years. W. H. Seaman, county superintendent of schools, presented them with gold medals recently. None of the honor scholars are boys.

## YUAN'S CHILDREN SCATTERED, AS PER HIS WILL

PEKIN, July 27.—In accordance with the late President Yuan Shi Kai's final instructions, sons and daughters of the dead ruler are preparing today to be sent to many widely separated places in charge of government officials.

Before his death, Yuan directed that his eldest, second and third sons and all his daughters and concubines should return to his native place to be cared for by Yuan Shi-fu, his fifth youngest brother.

His fourth, fifth, sixth and seventh sons were ordered sent to England, in charge of Yen Hsiu, former minister of education, for their schooling. His four youngest sons were entrusted to the care of Hsu Shihchang, former secretary of state. Several weeks having elapsed since the death of the ruler, the tension at foreign legations here is decreased and fear that a disturbance similar to the Boxer war might be imminent has been dissipated.

For some time after Yuan's death foreigners believed danger near. At several of the legations' entrenchments were thrown up, machine guns placed at advantageous positions and large stores of food prepared for a siege. Foreigners were warned to be ready to seek the shelter of their legations at a moment's notice.

## HONOLULU SEEKS NEW CITY CHARTER

HONOLULU, Hawaii.—Steps toward drafting a new charter for the city of Honolulu are to be taken soon at a meeting under the auspices of the Civic Federation. When the city charter convention authorized by the last legislature got into the hands of reactionary politics who framed up a charter that the progressive element could not accept the Civic Federation asked for the co-operation of various public and semi-public bodies to draft a new document.

The following organizations will have representatives at the meeting: Civic Federation, Chamber of Commerce, Honolulu Ad Club, Commercial Club, Municipal Research Club, Rotary Club and the Social Science Club.

**VIENNA BUYS FLOUR MILLS**

VIENNA.—For the improvement of the provisioning conditions of the city, the city council has purchased large flour mills and granaries on the Danube at a cost of approximately \$1,500,000. The mills are the greatest steam flour mills in Austria. The granaries are capable of storing 10,000 wagon loads of grain.

## WAGE INCREASE FRENCH TENDENCY

Industries Partially Recover From Early Flurry of European War

PARIS.—The tendency of men's wages in France is upward now that industries have recovered from the early perturbation of the war. If the workingman's income is not proportionate to his high war budget, it has responded to the law of supply and demand, and is likely to remain higher than before the war.

Monsieur Charles Piquenard in a study of the war's effect upon economic conditions, says there would have been a more substantial increase in wages if industries were not working under the most uncertain conditions; they are unable to make any definite plans for the future, and operations of great scope requiring big credits are impossible, so long as the moratorium lasts; they are obliged to pay cash and sell for cash. The encouraging feature is that orders are more regular. What the readjustments of things will bring after the war is the great uncertainty that stands in the way of a complete revival of such industries as are able to procure the raw material they require and find a market for their production.

There are about 11,000,000 wage earners in France, including 2,300,000 engaged in agriculture. Of the remaining 7,700,000 there are a million

clerks and office employees, and 800,000 domestics, leaving 5,000,000 industrial workmen, 2,000,000 of whom were deprived totally of their incomes by the war, and 3,000,000 of whom had their resources reduced either by the diminution of working hours or reduced production of piece work by reason of changed conditions.

The principal reductions were in the purely feminine industries, such as dressmaking, in which 85 per cent of the establishments reduced day wages from 25 per cent to 50 per cent. This discrimination against women is explained by the fact that men are better organized for resistance against wage reductions. Had the seamstresses of Paris been organized in unions, the employers' syndicate would perhaps hesitate to fix the general reduction of wages at 50 per cent.

In the retail and wholesale trade, the reductions were quite general, and ranged from 20 to 50 per cent.

A considerable number of the 900,000 domestics found themselves out of employment by reason of the breaking up of families and reduction of household expenses. The simple law of supply and demand operated to decrease the wages of the others.

More than 8 per cent of the commercial and industrial establishments of France are now open as against 57 per cent in the fall of 1914. The proportion of help employed by those establishments has risen from 34 per cent of the normal in August, 1914, to more than 75 per cent. The average proportion of mobilized men in such establishments being more than 24 per cent, it follows that the entire mobilized staffs are again employed.

The wages of the small salaried employees have come back to the normal figure in 90 per cent of the establishments. The higher salaries still suffer certain reductions.

The increase in the number of working hours has automatically increased the earnings of workers paid by the hour in all factories whose production is taken by the army. In some cases the wage scale has been increased, making double gain. The piece work scale also has been increased in many industries working for the government. The reasons for these increases are found in the comparative dearth of skilled workmen, and in the zeal of the manufacturers to push the output to the maximum on the pressing demands of the government.

The spinners and weavers of Normandy and the north are earning from 10 to 20 per cent more than before the war. The remaining 10 per cent of the embroiderers and tulle makers unmobilized at Calais, who earned 50 to 60 francs a week, are earning from 70 to 80 francs a week.

**DEAD MOTHER'S MONEY FOUND IN OLD COUCH**

IRWIN, Pa.—Peter Provichuk, a miner of Hahntown, recently transferred a couch from the late home of his mother to his own home. While it was being handled roughly the bottom dropped out and \$270 in cash was disclosed. Shortly before her death Provichuk's mother had expressed a wish that she should have the couch, but she did not hint that she had used it as a savings bank.

## ENGLISH STRAITS AT KUT REVEALED

Regiments In Front Line Too Weak to Carry Equipment When They Surrender

LONDON.—The straits to which General Townshend's little army at Kut, the remnant of the force which pushed almost to Bagdad, was reduced before it surrendered with the approval of the home government are becoming only gradually known in England. The latest contribution to the annals of the siege comes in a letter from Edmund Candler, correspondent with the expedition which attempted in the face of impossible weather conditions to relieve Townshend's beleaguered troops.

For four months Townshend's men were under almost constant fire, with no possibility of making any safe protection from the shells. During the last weeks of the siege the daily deaths from fire and disease caused mainly by hunger averaged eight British and 21 Indians. When Kut finally capitulated, the regiments holding the front line, which had been there a fortnight without relief, were too weak to carry their equipment.

**Privations Began in February**

The real privations began in the middle of February, especially in the hospital. When milk gave out the hospital diet was corn flour or rice water for the sick and the ordinary soldier's rations for the wounded. Until April 21 there was a daily grain ration of four ounces. From the 23d to the 25th the garrison subsisted on two-day reserve rations issued in January, and from the 25th to the 29th on food dropped by aeroplanes.

The details Candler sends were obtained from wounded British officers who were permitted by the Turks to join the main British force below Kut. The writer adds:

"All the artillery, cavalry and transport animals had been consumed before the garrison fell."

**Beribboned Mule Slaughtered**  
One of the last mules to be slaughtered had been on three Indian frontier campaigns and wore the ribbons around his neck. The supply and transport butcher had sent it back twice, refusing to kill it, but in the end it had to go with the machine gun mules. Mule flesh generally was preferred to horse, and mule fat supplied good dripping; also an improvised substitute for lamp oil.

"The tobacco famine was a great privation, but the garrison did not find the enforced abstinence cured their craving, as every kind of substitute was there. An Arab brand, a species similar to that smoked in Indian hookahs, was exhausted early in April. After that time leaves were smoked or ginger or baked tea dregs. In January English 'baccy' fetched over £3 a half pound."

"In an auction of a dead officer's effects a box of cheap, Indian cheroots fetched over £13, a box of Egyptian cigarettes £8 and a tin of condensed milk £2 5s. Just before General Townshend's force entered Kut a large consignment of warm clothing had arrived, the gift of the British Red Cross society. This was most opportune and probably saved many lives. The garrison had only the summer kit they stood up in."

For Long Beach take Crown Stages every hour.

## PUBLIC DANCING

Los Angeles is being disturbed about the age-old problem of public morals and dancing. Just when dancing is a sin and when it is not is a question at least as old as Socrates, and we may yet find some cuneiform inscriptions forbidding the festive steps in the lower Euphrates valley. But the particular problem in Los Angeles is the discussion of dancing as a public institution, where men and women, often but little removed from childhood, meet at dances relieved from the restraint of chaperonage, and with many incentives that go to eliminate all self-control. So once again the battle of the stern moralists who wish the town to know nothing that might under any circumstances lead to evil, and of those old fakers, the "personal liberty" people, is on once more, with the general public suspecting the motives of each side and trying to assume a judicial attitude that will produce the least troublesome results.

It is somewhat disgusting, however, to find once more the "personal liberty" people in this moral or unmoral dispute attempting to pulverize their opponents by getting a clergyman to lead in the arguments in favor of public dancing. In reality, this method of persuasion is the best possible concession to the people on the other side. Why is it considered so very convincing to find a preacher arguing in favor of safe dancing as a healthful and moral diversion? Because every one knows that he ought to be, as a matter of course, arguing on the other side. The idea is that we might be astonished into permitting any sort of old thing, just so long as a preacher said that what is very evidently rotten is in fact good.

If life is, after all, a sort of see-saw between good and evil, we demand that the clergy shall be found teetering on the side of reform. It may be that they will sometimes play too hard, but in any case that is their side of the fence. We do not like to see a preacher too wicked. It violates our sense of the proprieties. We do not want to see pearls cast before swine, nor a man in freshly starched Palm Beach clothes digging post-holes worthy as that occupation is. There should be a fitness about things. So when we find the "wets" hiring a preacher to argue in favor of unlimited opportunities to get men drunk, we think that he is off-side, and that they are wasting their money. There surely must be some better arguments in favor of "personal liberty."—Fresno Republican.

## LOOK WHO'S HERE!

In the organization of a League of Republican Clubs, effected at San Francisco Friday, we note that S. O. Walker of Tulare county was elected one of the vice-presidents. If they were picking "regulars" they made no mistake when they selected S. O. Otis has mighty little over him—Tulare Register.

It seems that our old friend S. O., who used to do practical politics in Orange County, has lost nothing—or, if you look at it another way, has gained nothing, politically or civilly, by his removal to Tulare County.

WILL ASK DONATIONS  
EL CAMINO REAL BELLS

Four El Camino Real bells are needed to complete the marking of the state highway through Orange county, and the city council of Santa Ana will be asked to contribute the money necessary to secure them.

A representative of the El Camino Real Association was in the city Wednesday for the purpose of discussing the matter with members of the city council.

A formal request for the donation will be made at the regular meeting of the city's governing body at its regular meeting on Aug. 7.

Anaheim has contributed three bells, Fullerton two and Orange county ten. It is understood that funds sufficient to provide others needed has been donated by parties outside the county.

## Reeking With Insincerity and Inconsistency

(From the Tulare Register.)

When one goes back of the printed words supporting or antagonizing candidates for political office, to consider the mental stew from which they are quite frequently produced, things assume a queer aspect. For instance, glancing through the editorial columns of one of the Republican newspapers of the state this morning, we find it wrathfully smiting Governor Johnson for his "personal appeal to Progressives to make haste to the office of the registrar of voters and register as Republicans." This because they would then vote for Johnson as the Republican nominee for United States senator. This same newspaper has often declared that the Progressive party was dead, and has nearly as often invited the members of that alleged defunct party to come into the Republican party. How it can reconcile the two attitudes is more than we can make out.

Another exchange, Democratic, has for many moons belabored the Progressive party, and now it is shedding crocodile tears over what it calls "the base betrayal of the third party," the motive being to influence Progressives either to remain in their party or to manifest their resentment by voting the Democratic national ticket. The whole thing reeks with insincerity.

Another editorial we read this morning says: "Now Democrats and Republicans have fought many a battle in the past, but rarely did they reach the name calling era. Not so with the rival factions of the Republican party." The object of that, obviously, is to encourage hostility and to promote a sentiment of disgust in the minds of independent voters. It may work with first voters, or those who have taken part in recent political fights only, but the older voters know better. They well remember the days when name-calling and charges of corruption were the main stocks of the political orators. In the first Cleveland campaign the chief slogans were, "turn the rascals out," and "let us see the books."

Readers of the newspapers may find it interesting to study political editorials.

## Register With Some Party

Once more let us remind all persons who have registered non-partisan or "not-stated" that if they wish to have any voice in the coming primary election they must THIS WEEK have their registrations corrected, so as to state a party preference. Under the law as it was when they registered they could state this preference at the polls and there receive whichever ballot they asked for. But under the law as now revived by referendum, the party statement must be made on registration, thirty days in advance. THE TIME IS UP ON SATURDAY NIGHT OF THIS WEEK, JULY 29. The party enrollment can be made by merely signing a slip indicating the party preference and this may be done at the office of any of the numerous registration deputies throughout the county.

Every voter should at once register to qualify himself as a voter in the primary of some party. The immediately important contest is in the Republican primary, and voters willing to enroll as Republicans will consequently find there their greatest practical usefulness. Doubtless the largest registration will therefore be of intending Republican voters. The appeal, however, made necessary by the law itself and by the vote of the people, is for registration in some party, each voter to determine for himself his preference.

## Not Representative

(From the Fresno Republican)

A call has been issued signed by Francis V. Keesling, state chairman of the regular Republican organization (but we are glad to note not signed by National Committeeman William H. Crocker), calling on the official committee-men of that organization to meet as a nominating convention to determine whether Willis Booth or Walter Bordwell shall retire from the contest for United States Senator. Meantime both Booth and Bordwell, as well as Governor Johnson, have filed their petitions and affidavits in Sacramento, and the time within which withdrawals could be made or nominees kept off the ballot by failure to qualify expired last night. So the conference next Saturday could not withdraw anybody, even if the candidates were willing to yield to its dictation. The conference was called at the request of Willis Booth, one of the candidates, who announced his willingness to retire if the Republican party so desired and requested that the Republican party be assembled for that purpose. That the Republican party is constituted of all the registered Republican voters assembled at the polls apparently never occurred to Mr. Booth, as it does not to those who have called this conference.

THE ONE LAST UNSPEAKABLE AND INCONCEIVABLE HORROR FROM WHICH THE STAND-PAT POLITICIAN SHRINKS EVEN IN THOUGHT IS THE AWFUL SPECTACLE OF LEAVING THINGS FOR THE PEOPLE TO SETTLE.

To prevent this ultimate calamity, the party organization is to be assembled in the hope by elimination of making the people's choice for them and thereby leaving them no function but perfunctory ratification. Of course, nothing will be accomplished, since the conference will not eliminate Mr. Booth, and he would not have invited it if there was any possibility of his being the one eliminated, and since neither of the other candidates would withdraw even if requested by this conference.

The conference is, of course, a violation of both the letter and the spirit of the primary law. A meeting of an avowed faction to propose a candidate to the party primaries is legitimate, but a meeting professing to represent the party as such is illegitimate.

THE PARTY CONSISTS OF ALL ITS MEMBERS AND NOT MERELY OF THOSE WHO HAPPEN TO BE ITS COMMITTEEMEN, AND THE ONLY NOMINATING ASSEMBLY WHICH THAT PARTY HAS THE RIGHT TO HOLD IS THE ASSEMBLY

AT THE POLLS OF ALL ITS MEMBERS. But in this case the illegitimacy of the convention is doubly evident, because this is a convention of the organization of the Republican party that was to take action for the Republican party that is and shall be.

THE REPUBLICAN PARTY THAT WAS IS THE SCHISMATIC PARTY WHICH NOMINATED TAFT AND CARRIED TWO STATES, WHICH NOMINATED KNOWLAND AND WAS THIRD IN THE ELECTION, AND WHICH NOMINATED FREDERICKS AND WAS BEATEN BY TWO HUNDRED THOUSAND VOTES. THIS PARTY THAT WAS HAS A HOLD-OVER FORMAL ORGANIZATION WHICH REPRESENTS NOT ITS INCLUSIVENESS BUT ITS EXCLUSIVENESS. AN ORGANIZATION FORMED FOR THE EXPRESS PURPOSE OF MAINTAINING AND EMPHASIZING THE SPLIT WHICH THE RECENT ACTION OF THE NATIONAL CONVENTIONS IN CHICAGO HAS INAUGURATED. A MOVEMENT TO REUNITE.

The Republican party that is to be will be constituted of all the elements of the reunion. By the invitation of the Republican party and in accordance with the national policy now agreed upon, Progressive voters are returning to the Republican ranks and are signifying this fact by registering as Republicans. The new party to be constituted by the reunion will consist of all the members thus acquired.

These members insofar as they shall have registered by July 29, will be competent at the primary to express the wish of the reunited party. The organization which assembles on Saturday cannot express this wish. It is the representative of one-half the divided party that was, and is beligerently hostile to the other half of the united party that is to be. The purpose of its conference is not to choose among the three candidates before the members of the reunited party, but between two of them who represent the schism for the purpose of emphasizing and perpetuating that schism as against the third, who represent the reunion.

So, illegitimate as a party nominating conference might be in normal times, when the party organization is at least the delegated representative of the party, it becomes doubly illegitimate now when that organization is the representative of only half the party and professes to speak in the name of the whole party upon a past and divided issue.

## TRACTOR CREW HELD FOR INJURING STREET

FULLERTON, July 28.—The drivers of a sixteen-horse team which was hauling a large tractor engine over the streets here late yesterday afternoon was arrested on a charge of having damaged the thoroughfare. It is alleged that the wheels of the engine cut into the asphalt surfacing.

Orange County Business College.

DIES BENEATH AUTO  
MEDFORD, Ore., July 28.—C. W. Mault, an automobile dealer of Medford, was found dead beneath his overturned car five miles north of Yreka, Cal. A coroner's jury has brought a verdict that he died of the effect of inhaling gasoline fumes, the tank of his car having burst when it upset.

## With Malice Toward None

By Henry James

Comfort for the Bald  
A doctor—or at least the frequent mentions of the gentleman accredit him to medical profession—is said to declare that he has found a cure for baldness. He says the remedy is to comb the arms and hands with an aluminum comb. This instrument should be used on the back of the hands, or the palms, according to the location of the spot suffering from lack of hair.

Sounds reasonable and highly scientific. Let it be considered, then, that baldness has been conquered.

But has the good doctor a cure for a lack of material substance inside the head? If so, would he have the kindness to use it, thus giving a demonstration of its effectiveness?

The Matter of Clothes  
John D. Rockefeller Jr. says that his miners dress better than he does.

Not better, John. Only differently. Clad in their very finest they would be just so many jarring notes in the Easter parade you adorn.

The English Sparrow  
It is said that the English sparrow has exterminated the caterpillar of New Zealand.

If this is true the bird shows there an appetite carefully kept in subjection when in our midst.

"St. Looney"  
A former resident of St. Louis grabs his pen to say that town is called "Saint Looney" by many of the high-brows—therein resident, and that those are not of the class who say "Frisco" and "Los."

All right. The pronunciation in question was condemned with the thought that it was unpopular in that burg. Life there is so devoid of comforts that the small one of going by the name they please shall not be denied the inhabitants.

Breaking a Habit  
While it is difficult to change an old habit, it can be done.

There was a man who for years had the habit of turning his pay envelope over to his wife. Lately he discovered that she used the money to play the races. He changed.

Extreme Politeness  
A resident of Parsons, Kan., has a suit fifty-one years old which he says he still can wear in polite society.

Better not try it in any other kind of society, though.

Snoozing  
"We have been asleep for twenty years," says an Idaho paper.

Assuming this to be the editorial "we," the somnolent condition has been suspected.

He Won  
To prove that he could take eleven drinks of whisky with only a pause for breath, a Chicago man took them.

So well-pickled did the undertaker find him that an extra profit was made possible because there was no use for embalming fluid.

The Fighting Nth  
It is hoped that before the mobilization of state troops has been completed there will be the novel spectacle of some regiment marching away without having the local papers dub it the "Fighting" something or other.

Most of these regiments would fight if they had the chance, but for gracious sake let them make good before giving them the title.

Thirst  
Glancing over the advertising columns one observes that many liquids are mentioned as fine for assuaging thirst.

Nothing seems to be said about water, which beats them all.

Devastation by War  
Lawn tennis has suffered much by the drawing of its best exponents into the cactus decorated maelstrom of the border fuss.

However, in a pinch a healthy tennis player can do more for his country with a rifle than with a racket.

The Warrior Bold  
Tom Taggart would a-warring go.

A regiment behind him.  
So fast he'd charge the fleeing foe,  
His boys could never find him;  
And should he shout an order back,  
How could they ever mind him?

CLEAR SKIN COMES FROM WITHIN  
It is foolish to think you can gain good, clear complexion by the use of face powder. Get at the root of the trouble and thoroughly cleanse the system with a treatment of Dr. King's New Life Pills. Gentle and mild in action, do not gripe, yet they relieve the liver by their action on the bowels. Good for young, adults and aged. Go after a clear complexion today. 25c at your druggist's.

Dentist, 102½ East Fourth. Phone 253.

Orange County Business College.

The Forum  
Socialism Lauded As Cure For MilitarismEditorials By  
Register Readers

If Christ came to Chicago. No, not to Chicago; that is an old question. I mean, if Christ came into a United States citizenship court and were asked the question: "Would you shoot your father, etc?" I will leave the Christian professor (or confessor) to imagine what Christ's answer might be. My own answer is: Jdge, would you want me to kill a flunster of the gospel? You would not do it yourself, would you?

It is these ridiculous positions while our Christian profession and un-Christian practice leads us into. It is well that our attention should occasionally be directed to it. When an epidemic like the Rooseveltian war hysteria sweeps the country, even judges and ministers fall victims to the microbes.

The writings of the apostles leave a strong impression that Christ was a pacifist ("Prince of Peace"), a "peace-at-any-price" man. "For all they that take the sword shall perish with the sword." Matt. 26, 52. "Then said Jesus unto Peter, 'Put up thy sword into the sheath; the cup which my father hath given me, shall I not drink it?'" John 18, 11. "And unto him that smiteth thee on the one cheek, offer also the other." Luke 6, 29.

We admire Socialism because it is opposed to war. When Socialists become sufficiently numerous and are in control of governments there will be no war, and then will Christ's law of love and co-operation be fulfilled.

We admire Socialism, because it would stop capitalist exploitation. What has caused the internal troubles

of Mexico? The exploitation of the masses of the people by a few rich individuals and corporations. What has caused the hatred of the "gringo"? Exploitation of Mexican and the Mexicans by foreign corporations, many of them American, to whom concessions had been granted by the ambitious and greedy rulers of Mexico without consultation or consent of the rightful owners, the Mexican people who are waking up to bitterly resent it.

There are so-called Christian nations, representing all manner of creeds—Greek Catholic, Roman Catholic, Protestant—at each other's throats. There are those who are anxious to involve our nation in war. What heathens these Christians be, anyhow!

Socialism promises to bring us nearer to the Christianity of Christ, than we are now. Therefore, all good and intelligent men and women, especially those of Christian profession, should welcome and foster it and seek to direct it into the best channels. Be ye, therefore, co-operators with Christ.

The test of good citizenship does not rest in a man's willingness to shoot his father or brother, but in this: To leave the country a better country for others to live in than he found it.

J. G. BERNEIKE, M. D.

EDITOR'S NOTE—Both sides of this question have now been presented, and in the judgment of the editor further discussion would serve no good purpose and might do some harm. We therefore request that no further communications be sent in.

## Defends Judge Thomas' Crucial Test Question

An Open Letter to Mr. Vier Robinson and Others Like-Minded.

Gentlemen: I notice your criticism of Judge Thomas' question to an applicant for citizenship. You say, as a student of American institutions and government, you doubt the propriety of asking such a question; that the war thought is entitled to no place in the counsels of civilized people.

As a student of American institutions and government, do you not know that Judge Thomas has taken an oath to support the Constitution of the United States, and that in asking this question he was performing a duty required of him under that oath?

Do you not know that the Constitution of the United States was formed to provide for the common defense; that Congress is given the power to declare war, to raise and support armies, and to provide and maintain a navy, and also to provide for calling forth the militia to execute the laws and repel invasion?

Do you not know that the Supreme Court of the United States has declared that the government has a right to demand from every citizen not only his property, but also his very life when necessary for the protection and defense of the government and people?

Do you not know that the creation of this nation and the formation of that constitution were through the war of the Revolution? Were not the American colonies but the children of England, fighting the mother country? And were not brothers fighting against brothers, and sons against fathers for their highest ideals of liberty and citizenship?

In the war of the Rebellion was not our constitution preserved and the integrity of our country maintained in a war between the states, where brother fought brother, and son fought father? Were George Washington and Abraham Lincoln great patriots or wholesale murderers?

Do you not know that each one of these applicants for citizenship before Judge Thomas was obliged, under the law, to take an oath to support the Constitution of the United States and to absolutely and entirely renounce and abjure all allegiance and fidelity to every prince, potentate, state or sovereignty, and particularly the prince, potentate, state or sovereignty of which he was before a citizen or subject?

Do you not know that under that oath, if war arose between this country and the country whose allegiance he had abjured, each one of said candidates might be called upon to bear arms in defense of this country, and against the one whose allegiance he had abjured, and that under the possibilities of war, the exact situation which Judge Thomas indicated might arise?

In view of the feeble and doubtful allegiance recently exhibited by some of our naturalized citizens, was it not pertinent and wise in Judge Thomas with this question the full meaning of the oath which he was about to take, and the obligations of his citizenship to defend his adopted country to the uttermost?

July 21 there was a preparedness parade in San Francisco. A bomb was exploded, six innocent citizens were killed and dozens horribly wounded. The perpetrators said in a letter to the papers, that they would show that "militarism cannot be forced on us and our children without a violent protest," and signed themselves, the "Determined Exiles from Militaristic Government, Italy, Germany, United States and Russia."

You say the judge's question is only another sign that European militarism is fast laying hold of our land. That sentiment appears strangely in consonance with the sentiment expressed by the bomb throwers at San Francisco. Do you sympathize with them? If you do not, why did you not protest

against their conduct rather than that of Judge Thomas? Do you consider his conduct a greater menace to our country than theirs?

Yours truly,  
E. E. KEECH.

EDITOR'S NOTE—Both sides of this question have now been presented, and in the judgment of the editor further discussion would serve no good purpose and might do some harm. We therefore request that no further communications be sent in.

\$1,000,000 FIRE IN NEW YORK

NEW YORK, July 28.—Loss estimated at \$1,000,000 was caused by a fire of unknown origin which destroyed the large three-story frame warehouse of the Uneda Storage and Van Company.

TO AID FLOOD VICTIMS

MONTGOMERY, Ala., July 28.—Gov. Charles Henderson appeared before the Mobile chamber of commerce and made a personal appeal for collection of funds for Alabama flood victims. He declared 30,000 people in the state had been made homeless.

CAPERTON AT BAY CITY

SAN DIEGO, July 28.—Rear Admiral W. B. Caperton is here today, when he relieved Admiral Cameron McRae Winslow as commander in chief of the Pacific fleet.

Take Blue Line Stage to Long Beach every hour.

## THE OBSERVER

I went to Seal Beach Wednesday evening with a friend, in his car. We were moving along at what seemed to us a pretty lively rate—right at thirty miles, we thought—when a car whizzed past us at a rate of speed that made us look like we were going about ten miles an hour. Glancing at our speedometer we were surprised to find that we were going at the rate of—well, at least thirty miles.

And who do you think it was that passed us at about forty miles an hour?

No; I'm not going to tell you his name. It is his first offense, so far as I know, and I'm going to put him on probation. But if I ever catch him exceeding the speed limit again, or if I ever see a notice of sheriff's sale published in any other paper than the Register—especially in a Democratic paper—I'm going to bawl that fellow out.

Assistant Secretary Dudley of the Los Angeles Chamber of Commerce told a mighty good story at the Seal Beach meeting of the Associated Chambers of Commerce. It illustrated most strikingly what happens to a community in which every citizen depends on the other fellows to render public spirited service.

In a certain European village the people were very poor. They lived by making wine on a small scale, operating individually, and their wealth (or poverty) was measured in bottles of wine—none ever had so much as a barrel of wine.

Now in this village there was a pastor whom the people greatly loved, and they counseled together as to how they could do something for him to express their love and gratitude. So they agreed that after nightfall they would roll an empty barrel to the pastor's door and before morning each of them would empty into the barrel a bottle of wine, thus by community action making the pastor the richest man in the village.

At daybreak they all gathered at the pastor's door to witness his surprise and pleasure. But when he turned on the faucet to fill his glass with wine, lo and behold, there came forth only water. Each villager had the same thought and did the same thing. Each thought that HIS bottle of wine wouldn't be missed and he would pour into the barrel only water.

Thus it is with the community in which each man thinks HIS services will not be missed—the wine of prosperity turns out to be only the water of adversity.

BAD TO HAVE A COLD HANG ON  
Don't let your cold hang on, rack your system and become chronic when Dr. Bell's Pine-Tar-Honey will help you. It breaks the inflammation, soothes the cough and loosens the phlegm. You breathe easier at once. Dr. Bell's Pine-Tar-Honey is a laxative Tar-Syrup, the pine tar balsam breaks the raw spots, loosens the mucous and prevents irritation of the bronchial tubes. Just get a bottle of Dr. Bell's Pine-Tar-Honey today. It's guaranteed to help you. All druggists.

## Candidates' Announcements

## BEACH WHIST PARTY

Mrs. Abner Wood Hostess Yesterday to Party Friends, Santa Ana, Newport

A very delightful day was passed yesterday at Newport Beach when Mrs. Abner Wood entertained a party of friends from Santa Ana and Newport. The ladies arrived in the morning and enjoyed a pleasant swim before dinner, the day being an ideal one for this sport.

At noon Mrs. Wood served a delicious Spanish dinner, which was one of the jolly features of the day and thoroughly enjoyed. The table was centered with a cluster of red dahlias, the gift of one of the guests.

In the afternoon progressive whist was the diversion. Mrs. O. V. Noble of Santa Ana winning first prize and Mrs. Art Heard of Newport second. Those present were Misses Art Heard, Charles Smith, Will King, Ida King, O. V. Noble, Will Kelly and Miss Mildred McNeal.

Company L Benefit Postponed

The Company L benefit entertainment scheduled to be held at Elks hall this evening, has been postponed until next Monday evening, on account of the inability of Captain McBride, who was scheduled to make a speech, to arrive.

The program, as arranged by well-known artists, promises to be a most delightful one.

Played Five Hundred

Mr. and Mrs. B. J. Chandler were hosts to a few friends last evening, the diversion for the evening being the interesting game of "500." Mrs. Chandler used delicate purple asters and ferns for her house and table decorations.

At the close of the games, social conversation and dainty refreshments were enjoyed, the guests numbering Misses Kate and Clara Mungler of Irvine, Dr. Winter W. Silver of Fullerton, Harry Bando, H. Monett and Miss Sophie Stricker of San Francisco, sister of the hostess.

## NOCTURNE

"Watch in the trenches, How wears the night?"

"Nothing is seen in the midnight sky

But the trail of the death rockets flashing by:

So wears the night."

"Watch in the trenches, How wears the night?"

"A form in the starlight gasping its last,

The tail of a meteor shimmering past:

So wears the night."

"Watch in the trenches, How wears the night?"

"Darkness, darkness, then afar

The sudden glare of a man-made star:

So wears the night."

"Watch in the trenches, How wears the night?"

"Dawn flares up in the bloody east:

The vultures swoop to a carrion feast:

So wears the night."

"Dreamer in the tower, How will it end?"

"The mists are shrouding a red, red sun,

Humans are blinded and only One May know the end."

—Elias Lieberman, in Outlook.

FIRST CONVENTION

Young People's Covenant Union, Southern California, Here August 2

The first convention of the Young People's Covenant Union of Southern California will open here in the Reformed Presbyterian Church, corner First and Spurgeon streets, Wednesday, August 2d, with three sessions.

The following is the program: Convention theme: That in all things He might have Pre-eminence.—Col. 1:18.

Wednesday Morning

Missionary Session

9 o'clock—Devotional, "How to Put the Bible into Life,"—Ps. 119:105-112, Mr. Woodrow Stewart, Santa Ana.

9:30—Business.

9:50—Address of Welcome, Miss Mary Walkinshaw, Santa Ana.

9:55—Response, Miss Ruth McDonald, Los Angeles.

10:00—Address, "The Missionary Spirit and How to Attain It," Mrs. G. N. Greer, Santa Ana.

10:10—Discussion.

10:20—Address, "Home Mission Work to be Done in Our Community," Miss Nana Caskey, Los Angeles.

10:30—Discussion.

10:40—Address, "Our Responsibility in the Evangelization of the World and How We Are to Meet It," Miss May Morrow, Hemet.

10:50—Discussion.

11:00—Address, "The Spirit of Missions," Rev. A. A. Samson, New York.

11:30—Praise.

Wednesday Afternoon

National Reform

1:30 o'clock—Devotional, "Purpose, Persistence and Power in Prayer,"—Mat. 7:7-11, Mr. Jas. Long, Hemet.

2:00—Address, "How Can Our Young People Show Their Loyalty to Christ in National Life?" Mr. Howard Boyd, Los Angeles.

2:20—Discussion.

2:30—Address, "What Relation Does the Keeping of the Christian Sabbath Bear to National Prosperity?" Miss Margaret Walkinshaw, Santa Ana.

2:40—Discussion.

2:50—Address, "Temperance: Why We Are Going to Help Make California Dry, and How," Mr. Slater Thompson, Hemet.

3:00—Discussion.

3:10—Bible reading contest.

3:40—Report of societies, business.

3:55—Praise.

4:00 to 5:00—Social hour.

Wednesday Evening

7:30—Devotional, "The Way in Which God Wants to be Thanked,"—Ps. 67:1-7, Mr. Floyd Walker, Los Angeles.

7:45—Address, "Reaching the High-brows," Judge W. H. Thomas, Santa Ana.

8:30—Address, "National Preparedness," Dr. J. S. McGraw, Los Angeles.

9:30—Closing business

9:45—Praise.

Benediction.

Have Interesting Guests

Mr. and Mrs. A. J. Nicky and daughter Jeannette of Long Beach, and Mrs. Emmet Randall and daughters, Misses Lucille and Genevieve, of Rockford, Ill., are guests this week of Mr. and Mrs. F. P. Nicky.

Picnics at the various beaches have been enjoyed and this evening there will be an informal musicale at the Nicky home, for Miss Jeannette Nicky, who is a pianist, and Miss Lucille Randall, who is a vocalist and a student at Cornell.

Charming Announcement Party

Miss Winifred Perkins was the complimented guest yesterday at Orange, when Mrs. Will Houghtaling of that city and Mrs. Joe Rabbit of this city were hostesses at her announcement party. The guests were told that Miss Perkins would become the bride of William Thomas of Los Angeles on August 16 and she was the recipient of many good wishes for her future happiness.

A sumptuous luncheon of five courses was served at the charming bungalow of Mrs. Houghtaling at the corner of Palm and Orange streets, yellow having been selected as the color tint, and beautifully carried out with Shasta daisies artistically grouped in a large cut glass bowl in the center of the board and silver nut baskets tied with yellow tulle bows. The place cards were found in tiny envelopes.

The guests lingered long over the delectable viands and the middle of the afternoon found them just leaving the table. The remainder of the afternoon was passed with playing and singing and lively conversation.

Besides the hostesses and honoree, those present were Miss Alice Clausen and Mrs. Lloyd Elliott of Santa Ana; Miss Lois Parks and Mrs. Agnes Cramer of Orange; Mrs. Percy Hope of Los Angeles and Miss Anna Clark of Pasadena.

Seven Candidates Initiated

At the regular meeting of the Fraternal Brotherhood Lodge last night seven candidates were initiated into membership.

The Army side of the present contest entertained for the evening and had the hall beautifully decorated with pink Maman Cochet roses. Over 100 members were present and after the business session listened to a delightful program of readings and musical numbers as follows:

Piano solo, Mrs. Carnahan; reading, Miss Flossie Swett; reading, Mrs. Frankie Johnson; vocal solo, Miss Bessie Hanford; recitation, James Ryan; piano solo, Miss Marie Thomas; vocal solo, Miss Moerser; character impersonation, Miss Mabel Burton; recitation, Miss Mabel Harvey.

A surprise entertainment is being worked out by the Navy side for next week amid much enthusiasm, as the Navy side is leading in the contest by nearly 400 points.

Several of the lodge officers went to Olinda on Wednesday night to assist District Manager F. A. Rogers install the officers of Olinda Lodge.

Program of Piano Music

A piano recital will be given on Monday evening, July 31, at 8 o'clock, at the First M. E. Church, corner Sixth and Spurgeon streets, by pupils from the class of Miss Zoe L. Glidden. An invitation to attend is extended to all who are interested in music education. Only medium and advanced pupils will appear on this program. A feature of special interest will be numbers for two pianos by Miss Jewell Hickox and Miss Augusta Buchheim, both talented young musicians.

The program is as follows: Mac Dowell ..... Novelette

Ph. Enl. Bach ..... Allegro

Coleridge Taylor ..... Humoresque No. 2

Jewel Hickox

Greig ..... Patriotic Song

Greig ..... Watchman's Song

Beethoven ..... Bagatelle

Harold Albright

Greig ..... Monnetto for 2 pianos

Jewel Hickox

Augusta Buchheim

C. Gurliitt ..... Peasants' Frolic (transposed)

Florence Goodrich

..... Dickory, Dickory Dock

..... Frances Battey

Poldini ..... Duet-Serenade

Mildred Joyce

Miss Glidden

Verdi ..... Anvil Chorus

J. S. Bach ..... Musette

..... Lillian Dowell

Liebitz ..... The Echo

..... Frances Battey

Helen Battey

Hannah Smith ..... The Summer Sea

Ethelbert Nevill ..... Barchetta

Ruth Turner

Lack ..... Song of the Brook

Harold Albright

Haberber ..... Flower of Spring

Augusta Buchheim

Mozart ..... Phantasia

With Greig accompaniment for two pianos

Jewel Hickox

Miss Glidden

Congregational Bible Class

The Senior Bible Class of the First Congregational Church held a prayer service last evening at the home of Mrs. Estella M. Wilson on South Spurgeon street, twenty-five being present. W. H. Crose led the meeting. Mrs. Wilson was hostess during a pleasant social period, being assisted by her daughter, Mrs. J. M. Long, and little daughter, Orestel. Delicious ice cream and cake were served. The decorations were in ferns and carnations.

## TRIBUTE TO RILEY

He Sang Simply For His Own Age and His Own People

In the scheme of creation no one man is indispensable. Remove the finest organizer, the most influential leader, the mightiest monarch, and some one will be found to fill the vacant place. The great corporation's business is not halted, the affairs of state run smoothly on, no military plans are disorganized, though the voice on which so much depended is silenced by the hand of death.

The brains of the world are infinite, its intelligence is syndicated. A Hill, a Harriman, a Kitchener, an Agassiz, a Bismark, a Napoleon may come and go, but commerce and statesmanship and science bridge the gulf that progress may not be halted or retarded. The practical world is too large for the individual. "The King is dead—Long live the King!"

But the heart of humanity is also infinite. And because it is unorganized—and only a little practical—there are riches in that heart once left vacant can never be filled again. Therein the whisper to sympathy speaks louder than the call to power. In that public heart has just been hushed the voice of one of our dearest singers, and though there may be—and will be—hards and poets to interpret different phases of sentiment for coming generations, none will entirely fill the niche left vacant by the passing of James Whitcomb Riley.

"Read from some humble poet, whose songs gushed from his heart"—in how many thousand homes have the words of Longfellow found illustration through the "treasured volume" of the Hoosier poet. For this man of the people made songs for the hearts of the people, gave a color of sentiment to the common experience and touched with divinity the trifles that for most of us make up the sum of life.

James Whitcomb Riley aspired not to the ranks of the "grand old masters, the bards sublime."

"Whose distant footsteps echo Through the Corridors of Time."

He sang for his own age and for his own people in simple phrase and in homely dialect. Perhaps for this very reason posterity will class him among those who have sung for all ages and all peoples, as it gave ready recognition to the humble Scottish poet, Bobbie Burns.

For to those sometimes tired of "Life's endless toil and endeavor" and echoing the poet's cry, "Tonight I long for peace," the sympathetic message in many a simple verse from the hand of the dead poet will come as "the benediction that follows after prayer," will steal over the soul as faint strains of harmony heard over still waters in the quiet of some restful haven.

"And the night shall be filled with music,

And the cares that infest the day Shall fold their tents like the Arabs And as silently steal away."

—Los Angeles Times.

Clover Club Entertained

Mrs. F. B. Miller of 1413 Bush street entertained the members of the Clover Club yesterday at an all-day meeting, the day being spent at fresco. Mrs. Miller has a very inviting yard and in the trees grew petted ferns and baskets filled with Shasta daisies made spots of bloom here and there from the branches.

A bounteous picnic lunch was served at noon in the pretty garden and in the afternoon Mrs. Clyde Newton of Orange sang several charming solos. Interesting games of box ball were played and fancy work occupied some of the time.

Mrs. Hugh Wiley of Tulare, a former member of the Clover Club, was a welcome guest, other members present being Misses W. B. Park, W. T. Syester, Clyde Newton, Roy Melton and Wiederman of Orange; Misses Will Elliott, E. L. Eckley, T. B. Elliott and E. A. Bell, of Santa Ana.

Guests Leave for Home

Misses Kate Orr and Mamie Breslin returned today to their home in San Francisco on the Harvard after a month's stay at the home of Mr. and Mrs. M. Nisson, they being friends of many years' standing.

They are loud in their praises of Santa Ana and vicinity, having visited the San Diego fair, Riverside and San Bernardino.

Yesterday Mr. and Mrs. Nisson had a family reunion to celebrate the birthday of Edmund Laederich of Orange, the latter being a brother of Mrs. Nisson.

Fruit For Company L

Two hundred and eighty pounds of peaches and plums left Orange by express yesterday for Nogales for the boys of Company L and will no doubt be hailed with delight by the lads in khaki.

Those who made the gift possible and assisted in packing it for shipment included Mr. and Mrs. C. M. Coones, Mrs. George Christensen of Orange; Mrs. Holderman, Mrs. J. L. McBride, Mrs. Deaver and Mrs. Carl Garnett of Santa Ana.

Charming Announcement Party

Miss Winifred Perkins was the complimented guest yesterday at Orange, when Mrs. Will Houghtaling of that city and Mrs. Joe Rabbit of this city were hostesses at her announcement party. The guests were told that Miss Perkins would become the bride of William Thomas of Los Angeles on August 16 and she was the recipient of many good wishes for her future happiness.

A sumptuous luncheon of five courses was served at the charming bungalow of Mrs. Houghtaling at the corner of Palm and Orange streets, yellow having been selected as the color tint, and beautifully carried out with Shasta daisies artistically grouped in a large cut glass bowl in the center of the board and silver nut baskets tied with yellow tulle bows. The place cards were found in tiny envelopes.

The guests lingered long over the delectable viands and the middle of the afternoon found them just leaving the table. The remainder of the afternoon was passed with playing and singing and lively conversation.

Besides the hostesses and honoree, those present were Miss Alice Clausen and Mrs. Lloyd Elliott of Santa Ana; Miss Lois Parks and Mrs. Agnes Cramer of Orange; Mrs. Percy Hope of Los Angeles and Miss Anna Clark of Pasadena.

## BY MERE CHANCE, EY WAS NOT CLOSE TO DEATH CORNER

The mere chance of getting on to a street car that ran no nearer the ferries than Fifth and Market streets is all that saved Frank Ey of Santa Ana and his son, Frank, of San Francisco, from being in the vicinity of Steuart and Market streets when the dynamite's explosion occurred last Saturday afternoon.

"My son Alfred had intended to march with the judges and attorneys' division," said Ey, who returned last night from a two-weeks' visit in San Francisco. "He got a letter from the bar association, telling him to join the division at Steuart and Market. Before starting Frank and I talked of going to Steuart and Market to see the parade. However, the street car that we caught went no further than Fifth and Market, and we saw the parade from that corner. The judges and attorneys' division had passed and was two blocks or so from Steuart street when the explosion occurred."

On Saturday Ey tried to go to the place where the explosion occurred, but he could not get within a block

of it. On Monday he went to the place. The hole that was blown in the sidewalk was covered over with a box and was guarded by policemen. Ey went inside the building, and from the inside he saw the hole that was blown through the front of the structure.

### NOT ABLE TO BE OUT

City Trustee George McPhee, whose automobile was turned over upon him at Anaheim Wednesday afternoon, is still confined to his home by his injuries. His back was severely bruised and wrenched. No complications have developed.

### SALOONKEEPERS MUST PAY WIDOW \$17,000 FOR HUSBAND'S DEATH

LINCOLN.—The judgment of the district court of Dodge county for \$17,000 was affirmed by the supreme court in an action brought by the widow of Delbert H. Juckett, a Dodge county farmer, against several saloonkeepers to recover damages for the death of Juckett under the Slocumb law.

On December 26, 1913, Juckett procured liquor in Royal and started for home. When the team reached home some time in the night Juckett was found dead from exposure to the cold. It was alleged that Juckett, since 1910, had been in the habit of visiting the different towns and drinking to excess.

### CHAPERON OR MUZZLE, ULTIMATUM FOR DOGS

OAKLYN, N. J.—Dogs, cows, pigs, hens, roosters and even the mayor's pet cat were given their innings at the regular meeting of the borough court when that body made it against the law for bipeds and quadrupeds to be allowed to wander about the streets of the town without a chaperon or muzzle.

The law was made to stop many complaints which have been made to Mayor Charles Edgar relative to chickens destroying other persons' property, cats fighting on the highways and danger to automobiles on the White Horse pike.

PAPER HIGH, SLATES ARE USED LONDON.—Owing to the scarcity of paper, the Hertfordshire County council has reintroduced slates in the public elementary schools in lieu of copy books.

For Long Beach take Crown Stages every hour.

### AT THE COURTHOUSE

## GETS JUDGMENT FOR SMASH AT A CROSSING

Bad Check Man Gets Fourteen In Folsom, Child Stealer Ten In San Quentin

Upon the question of right of way involved in a crossing collision, Judge Thomas has given judgment to Arno Ward, motorcyclist, against P. Gildea, autoist. Ward sued for \$850. The judgment intimated is \$850.

The crash occurred on Aug. 30, 1915, at the corner of Los Angeles and North streets. Ward had a leg and ankle broken. His complaint, filed by Attorneys Head & Marks, asserted that he had the right of way at the crossing. Gildea with Tipton & Cailor as his attorneys admitted that he approached the crossing from Ward's right, but he asserted that his machine was upon the intersection first and was therefore entitled to the right of way, even though Ward was approaching from Gildea's left.

The court gave Ward \$40 for damage done to the motorcycle, \$300 for wages lost while he was laid up, and Judge Thomas said that he had not fully made up his mind as to how much he would award for personal damages, but thought it would be \$500.

Sentenced to Folsom C. W. Armstrong's past life rose up and bumped him in the face today when he was before Judge Thomas for sentence for giving a \$25 bad check to the Valencia Hotel at Anaheim. Armstrong declared he had given his soul to God, that he meant to defraud no man, that he was not guilty of wrong-doing.

"Your career is honeycombed with crooked deals," said Judge Thomas. Examining a record he had before him, the judge asked Armstrong concerning numerous misdeeds in Idaho, Utah and Washington. Armstrong stoutly declared he was guilty of none of the offenses quoted.

Since a prior conviction of passing a bad check was against Armstrong, the minimum sentence was fourteen years. That sentence was given him. Folsom being named as the prison.

Armstrong denied that he had shammed insanity. He said he was very ill and he did not know anyone thought that he thought he was insane.

For Child Stealing

Romelo Ramirez, aged 50, was given ten years in San Quentin for stealing Bernarda Cruz from her parents at Buena Park. Attorney Meyer for Ramirez made a plea for leniency, declaring he was rescuing the girl from abuse at her home, contrary to the story of the girl that she was forced to go under threats of death.

Will Is Filed The will of Gertrude M. Bain, wife of F. R. Bain, president of the Southern Counties Gas Co., was filed for probate today, it having just arrived here from New York. Under the will \$20,000 is to go to Bain and the rest to other relatives and friends of Mrs. Bain. The value of the estate is not stated.

Recorder's Office

A mechanic's lien has been recorded by E. R. Bohan against J. C. Laurence, Harry Wilcox and property in the Anaheim Bay tract; demand, \$33.50.

An abstract recorded here shows judgment of \$556.25 entered in San Bernardino county in favor of the Pacific Light & Power Corp. against H. J. Vatcher.

Estate Appraised

The estate of Frank D. Leonard has been appraised by J. N. Anderson, John Avas and J. R. Paine, at \$30,157.

M'BRIDE WILL ARRIVE

IN LOS ANGELES

TOMORROW

This morning a telegram was received by Mrs. J. L. McBride, wife of Captain McBride, stating that the captain would arrive in Los Angeles tomorrow evening at 8:30 o'clock. The wire did not state whether or not the other discharged members of Company L would arrive at that time, but it is believed here that they will.

Take Crown Stages for Pomona and all San Bernardino County points.

CONVICT STEALS TO REJOIN PRISON BAND

HARRISBURG.—Joshua Stewart, who was sent to the eastern penitentiary for a theft in Middletown, told a deputy sheriff that he had stolen to get back to the eastern penitentiary, where he could play in the institution's band.

He had been released only a short time ago.

DANCE WILL BENEFIT STUDENT FINED FOR DUCKING PRINCIPAL

ALBANY, Ore.—The proceeds from a dance to be given by high school students are to be used to reimburse Orin Jenkins for a \$50 fine imposed on him for participating in ducking W. B. Young, principal of the Albany high school, recently.

Invitations have been issued by the O. J. Benefit club, and college and high school students have declared that this is the purpose of the dance. Jenkins was fined in justice court as a ringleader after Professor Young had been thrown into a deep creek by masked students at night.

### LAWYER, LOSING CASE, SUED BY HIS CLIENT

PORTLAND, July 27.—Samuel M. Johnson was attorney for O. H. Stubrud. He lost the case, Stubrud turned around and sued Johnson for \$233 damages. A jury in District Judge Hell's court gave Stubrud a verdict for \$50 against Johnson. When Stubrud employed Johnson as attorney Stubrud was defendant in an action brought by George A. Allen. He alleged that he lost the case through faulty pleadings prepared by Johnson and the fact that Johnson failed to perfect an appeal within the statutory time.

### TO PREACH AT DELHI

Rev. W. H. Galbraith, minister of the Baptist church, in Orange, will preach at Delhi in the school house on Sunday night at 7:30, July 30.

### DOES SLOAN'S LINIMENT HELP RHEUMATISM

Ask the man who uses it; he knows. "To think I suffered all these years when one 25 cent bottle of Sloan's Liniment cured me," writes one grateful user. "If you have Rheumatism, or suffer from Neuralgia, Backache, Soreness and Stiffness, don't put off getting a bottle of Sloan's. It will give you such welcome relief. It warms and soothes the sore, stiff, painful places and you feel so much better. Buy it at any drug store, only 25 cents."

## \$60,000 IN NEW STREET PAVING WORK UNDER WAY IN S. A.

City's Beauty Is Constantly Being Enhanced By Additional Surfacing

With the activities of property owners in this city along the line of street improvement, it will not be long until the city council will be relieved of the expense and trouble of sprinkling streets—an object the present council has often expressed a desire to attain.

Smooth, permanent streets add to the beauty of any city as well as to the value of the property fronting on them. The city now has many miles of paved streets and the mileage is being increased rapidly.

Upwards of \$60,000 worth of street work is now either under way or under contract with the Orange County Engineering and Construction Company, Wells and Bressler and the Finley-Magill Company, three firms which are now active in this field. Most of the improvement will be with crushed rock and oil. This costs less than concrete base and asphalt surface, and the total cost of the improvements will spread over many more blocks than it would if it were being expended for the more permanent class of work.

With third street under contract each and west, it will be the longest paved street in the city with the exception of Main, Broadway, Fourth and First streets.

The streets under way and under contract are as follows:

By Bressler & Wells—

Minter, Fourth to French, six blocks, macadam (crushed rock and oil).

Vance, French to Lacy, two blocks, macadam.

Stafford, French to Garfield, three blocks, macadam.

Third, Ross to Pacific, fourteen blocks, macadam.

By Finley-Magill Company—

East Third, Spurgeon to Breeden, seven blocks, asphalt.

Maple, First to Chestnut, three blocks, macadam.

Walnut, Orange to Oak, two blocks, macadam.

## F. E. PROUD PLANTING MORE LAND TO ORANGES

LA HABRA, July 28.—F. E. Proud has just finished setting twenty-seven acres to trees near pumping plant No. 6.

The ground was formerly owned by Mr. Gen. Chaffey. Since Mr. Proud purchased the place he has set out 1000 lemon trees and 1220 Valencia's. He also has had installed a fine system of pipe lines and his own reservoir costing over \$1000 which will be of great assistance in irrigating.

Eventually Mr. Proud expects to have one of the finest ranches in La Habra so that he can truly "look down" upon the rest of the valley.

Mr. Proud is one of the pioneers of the valley, having planted some of the oldest orchards in this region when no other citrus trees were in the community. His latest planting shows his interest and faith in the welfare and future of La Habra to be greater than ever before.

### BUILDING PERMITS

Thomas Sherrill, with W. A. Skiles, contractor, 6-room residence, 534 East Third; \$1900.

M. F. Doig, with Chris McNeill, contractor, alterations at 206 East Washington; \$350.

The Brunswick-Balke-Collender Co., alterations in Alexandria Billiard Parlors, at 416 North Main; \$200.

orchards from two to five years old,

fine condition. The older orchards

should produce good crops next

year. Unimproved lands suitable

for deciduous fruit, alfalfa, sugar

beets, corn, etc. Temporary ar-

rangements made to ship sugar

beets, but factory practically assured.

Plenty of gravity water. Will

trade clear for clear; or equity for

equity. Straight sales, 10 per cent

cash, balance long time. Submit

your proposition. Ask for fur-

ther information.

OWENS VALLEY IMPROVEMENT

CORPORATION

1207 Hibernian Bldg., Los Angeles,

Home Phone 10206 Cal.

HERE is shown a typical street paving scene in Santa Ana. The work of improving the city's highways goes forward constantly. It is estimated that paving now under way or under contract aggregates \$60,000. Both crushed rock and oil and concrete base and asphalt surface paving is being done.

## PLANS 2 RESIDENCES ON NORTH BROADWAY

John A. Harvey of the Citizens' Commercial and Savings Bank, has bought the residence at the corner of Halworth and Broadway from Mrs. Bates, who acquired the property a few months ago from S. R. Summers. The family is now occupying the residence. Minor alterations will be made in the residence at once. The lot has a frontage of 54 feet on Broadway, and next summer Mr. Harvey will erect a handsome residence on it.

The alterations will be made during the absence of Mrs. Harvey and children, who leave next week for Ashland, Ore., where they will visit with Mrs. Harvey's mother, Mrs. Ann R. Gregory.

### H. T. Rutherford Plans Broadway Residence

Another \$9000 or \$10,000 residence on North Broadway is assured before the first of next year.

H. T. Rutherford has purchased E. Richardson's lot on that thoroughfare and will have plans drawn at once for a magnificent residence.

The lot is located just south of Buffalo avenue. It has a frontage of 75 feet, with a depth of 310 feet.

Richardson has owned the property for a number of years, and last summer had plans drawn for a \$5000 residence, but sickness of his wife prevented the carrying out of the plans.

their large and growing industry.

Adjoining the main room on the south will be Manager C. L. Crumrine's quarters and in the rear to the southeast of the main room will be the directors' room, which will be the headquarters for the following directors:

A. M. Otis, president; W. L. York, vice president; William Espolt, George H. Kibler, N. T. Edwards, C. W. Millhouse and G. H. Sargent.

The vault is of large dimensions, the door of which has arrived. This part of the vault weighs 1200 pounds.

The building will be bungalow style and the inside finishings will be in a class with modern office buildings in much larger cities.

The La Habra Citrus Association is not only adding to its buildings in La Habra, but has added another branch to the packing house industry. The association has recently installed a small boiler to be used in manufacturing a lime sulphur solution. This solution is to be used by members of the association in spraying the trees throughout the large acreage under this association.

Growth of La Habra Association

La Habra Citrus Association was organized November 27, 1911, and began shipping the first oranges in the spring of 1912 from an old packing house of very limited dimensions. The house belonged to the California Vegetable Union and after two years' packing in this small quarters one of the three large new buildings was erected, the first section being completed January 1, 1914.

The first year the packing house was in operation the association shipped from La Habra fifty-seven cars of Valencia's and fourteen cars of navel's and no lemons.

The number employed during the first year was eighteen and the manager and the payroll in comparison with the present one looks like a stage coach alongside of an automobile and amounted to \$75.35 per week and continued only over a six-month period. There was only one picking crew, which was in charge of Albert Launer, now an attorney at Brea.

To Ship 389 Cars

This year it is estimated the association will ship from La Habra 150 cars of Valencia's and five or six cars of grapefruit, about fourteen cars of navel's and 225 cars of lemons. There already have been shipped 115 cars of oranges and 198 cars of lemons.

At the present time the number of people employed in the packing house is nearly 100 and varies from 140 to 125 at different seasons of the year.

The pay roll now runs in the neighborhood of \$2000 for a two-week period and will vary according to the number employed from about \$650.08 to \$2500 for two weeks.

The picking crews in the field at present are five with an average of thirteen to a gang and run from ten to twenty-five to a crew throughout the year.

There is a possibility that the association will build another packing house of something of the same size as the other three this fall but no definite information could be gained at this time regarding this further improvement and extension by the association.

BUY BEAN THRESHER

PLACENTIA, July 28.—Bradford brothers have just purchased a new bean thresher. This machine is one of the latest type and has a threshing capacity of from 600 to 800 sacks of beans daily. Bradford brothers have work enough ahead to keep the thresher busy for at least thirty days.

## FAME OF COUNTY SPREADS AFAR, INQUIRIES TO C. OF C. SHOW

Booster Organization Sends Out Much Literature On Advantages Here

The fame of Orange County—her wealth, her climate, her ideal home conditions—has spread to all parts of the United States, as the result of advertising, and the personal boosting of people who have come here for a visit and departed with impressions most favorable to the county.

Secretary Metzgar of the Chamber of Commerce is in receipt daily of communications asking for literature and information about this favored section.

And they get just what they want—from the production of one acre of any given product to the minutest detail of the cost of producing the same.

The file of letters kept by the secretary is one of the greatest interest to boosters. They give an insight into the standing of Orange County in various sections of the United States. Brief extracts from several inquiries received recently, are given herewith, the names and dates being omitted:

From Mount Vernon, N. Y.: As I am desirous of knowing the reason for the rapid growth of your city in the realms of commerce, manufactures, transportation, etc., would you send to the undersigned literature explaining the peculiar advantages which your city enjoys. I am sure that the information received relating to your city will be greatly appreciated and will, no doubt, be a means of advertising your city in the east.

From Knoxville, Tenn.: I am thinking of locating in Southern California, and have been told that Santa Ana, Orange county is as good a part of it as there is.

Please send me some booklets and other literature of your city and Orange county. What is the population of your city? How many railroads have you? Have you good transportation service in both passenger and freight? Have you a street railway system? How far are you from Los Angeles, also San Diego? How far are you from the coast? How is the winter climate? Is there very much poultry, eggs and butter in your section? By your city being the county seat, I suppose it is the trading center for most of the county.

Please let me hear from you, as I am going to locate in Southern California sooner or later.

From Elizabethtown, Ind.: During the early part of January I wrote you for information concerning the Santa Ana section. We appreciated your interesting reply very much. Since then we have made other investigations and have about decided to spend a few months in your section. From the information we have we believe we could profit financially by investing out there, but we do not care to dispose of our interests here until we are absolutely certain of what we can make out there. We are planning to go to your section this winter and remain for a year or eighteen months. In that time we can study conditions and opportunities and make a definite decision before we dispose of all our interests here.

From Antigo, Wis.: Should be pleased if you would mail me some literature on Orange county. I am very much interested in your section of California. I had the pleasure of visiting there a year ago for a few hours but had no chance of getting out into the country and seeing how things were there.

From Tipton, Iowa: Would like some literature on the possibilities of Orange county, as we imagine we would like your location on account of not so very many miles to either Los Angeles or the beaches. We have just bought a case of Valencia oranges put up by the Santiago Growers Association of Orange and they are really the nicest oranges we have ever eaten and we are becoming interested in Orange county. We have two or three well to do friends we are trying to interest in your county.

## WEDNESDAY DATE SET FOR OPENING BIDS ON NEW CATHOLIC SCHOOL

The building committee of the Catholic church which has in charge the erection of the new school house on a lot adjoining that of the parish house, met last night and adopted plans submitted.

Bids will be called for to be opened next Wednesday, August 2. Plans are on file with L. M. Doyle at the Citizens Commercial and Savings Bank.

## PLACENTIAN BUILDING RESIDENCE IN REAR OF BLOCK GOING UP

PLACENTIA, July 28.—L. L. McFadden has begun the erection of a large dwelling house in the rear of the office building he is having erected on North Main street. The building will be arranged for two families, each having an outside entrance. Each apartment will be modern in every respect.

Orange County Business College.

## New Citrus Record to Be Set in July By Fruit Exchange

Market Maintains High Level and Valencia Supply Over Double That of 1915

(Special to the Register)

ORANGE, July 28.—The present month will be like June, as far as breaking last year's records for shipments and sales is concerned, according to Manager L. D. Palmer, of the Orange County Fruit Exchange.

Figures for July have not been compiled but when this is done it is practically certain that it will be found that more Valencias, at better prices, were shipped than during July, 1915.

The market during this month has been very satisfactory. During the last ten days it has shown an upward tendency. Heavy arrivals of fruit in the east next week may ease the market somewhat, but the average for the month will still be exceptional, it is forecast.

The Valencia supply is almost double that of last year at this time. This, coupled with the splendid market, is a condition that is sending a flood of golden dollars into the pockets of the members of the Exchange.

Valencia shipments of the Exchange will continue into November, 600 carloads being scheduled for loading out after September 1.

## PROGRESS MADE ON BLOCK AT MAIN, CHURCH

The Hammond Lumber Company of Orange has been awarded the lumber contract for the Orange County Business College building, now being erected at the corner of Main and Church streets. The work of pouring concrete is now in progress and will require another week. Building operations are in charge of W. S. Decker. Gus Oberlein is in charge of the brick work. The stone work is being done under the foremanship of the McCord Stone Company, of this city.

## MAKING CHANGES AT ORANGE HIGH SCHOOL

Orange News: Several changes in the interior arrangement of the high school are now in progress. The library is being moved from an upper floor to a room adjacent to the study hall, where it will be under the supervision of the study hall teacher, who is also to act as librarian. By making the school library more convenient of access to the students, and supervising distribution, it is hoped to considerably increase the use of the books.

Additional library shelves are being placed in what was formerly a cloak room adjoining the study hall and this room will afford a passage to the library from the study hall.

Miss Rumsey, who was elected study hall teacher and librarian, has had experience in library work at the Riverside library.

Tables for the general science work in Mr. Kaylor's department are being constructed and will greatly facilitate the work of this department.

A cabinet is being built in the music room to provide for keeping the musical instruments when not in use.

The board has also adopted a new method of handling the class play. It is provided that the principal shall have supervision over the finances of the play, shall approve all expenditures in connection with it, and have charge of the remaining funds. Of these the class giving the play is to be allowed 25 per cent of the net, for the purchase of a gift to the school while the remainder is to be expended in graduation expenses, including diplomas, speakers and invitations.

## "Came to Palo Verde Valley with \$400 two years ago—gross crop yield last season \$6000"

Granite intake on the Colorado River-Palo Verde Valley Water System

Gentlemen:

Four hundred dollars was all I had when I landed in Palo Verde Valley. My gross crop yield for last year was \$6000. I have 120 acres and I wouldn't take \$250 per acre for my land today. I am planting 100 acres to cotton this year. I have raised cotton in the south, and I want to say that I believe this is the best cotton-raising section in the United States. Cotton can be raised at less expense and with more success here than in any other place I know of. Every condition favors the cotton grower here. It would be extremely difficult to persuade me to leave this promising valley. Great results have been accomplished thus far with the disadvantage of no railroad transportation. Now that the railroad is almost here, the great future of this valley is assured.

J. W. THOMAS.

\$100 an acre for "double-crop land" and perpetual gravity water right.

Terms—1/4 cash, balance 1, 2 and 3 years. Special terms to actual settlers.

"America's richest undeveloped empire"—that's what the editor of a great agricultural magazine called the Palo Verde Valley after a week's personal investigation.

The California Southern Railroad (almost completed) unlocks this little empire to the ranchers of the West who demand the EXCEPTIONAL from every farming and profit-making standpoint.

A part of the valley is already well developed. Wonderful achievements have been made. A great gravity water system has been established—a perpetual right goes with every acre—and the cost of maintenance for the past six years has not exceeded \$2 per acre per annum. Settlers have become wealthy here despite the lack of a railroad. What other section of the state can show a better record?

The valley has deep, rich soil of ever-increasing fertility, prior rights to the Colorado river, a "double-crop climate," a 12 months growing season, continuous production of green feed at lower cost than in any other section of the state, ideal stock raising conditions, and everything that the dairy farmer, cotton grower, orchardist and truck gardener could desire. Write or call for illustrated booklet and magazine that will open your eyes—the story of Palo Verde Valley by the ranchers themselves.

W. H. DE WOLF, Special Agent.

306 North Sycamore St., Santa Ana, Cal.

California Southern Realty Co.

827 Investment Bldg., 8th and Broadway, Los Angeles.

## Pay Your Bills By Check

Quite often we are called upon to return to a customer some cancelled check that proved that a bill had been paid. Had that account been settled by cash and the receipt lost or mislaid there would always have been a doubt in the payee's mind, even though he didn't insist on a second settlement.

Provide against any misunderstanding by opening a bank account, and then pay your bills by check.

## NEWS BUDGET FROM SMELTZER

SMELTZER AND WINTERSBURG, July 28.—Mrs. Wm. James and daughter Leila of Santa Ana, and their guest, Mrs. James of San Francisco, spent Monday at the James ranch at Smeltzer.

George and Lizzie Gothard, Fern Bradbury and Ina Clemens of Wintersburg spent Sunday with Rev. and Mrs. Dundas at Florence. Rev. Dundas was formerly pastor of the Wintersburg Methodist Church.

Elmer Radford of Los Alamitos spent Sunday with Mr. and Mrs. J. D. Shutt at Smeltzer.

The Y. M. C. A. of Wintersburg enjoyed at picnic at Anaheim Landing Saturday.

Andrew Moore of Smeltzer is reported on the sick list.

Miss Fannie Cummins of Riverside, who has been the guest of Mr. and Mrs. Geo. McGirk of Wintersburg, returned home Thursday and will again assume her duties as a trained nurse.

Mr. and Mrs. W. G. Alford, son Russell, of Smeltzer, and Mrs. Frank Hazard and daughter Luella of Westminster spent Sunday at Laguna Beach.

Miss Hattie Murdy of Wintersburg spent Thursday of last week at Long Beach.

Mr. and Mrs. John Cady of Smeltzer had as their guests Sunday Mrs. Mary Cade, Mr. and Mrs. Hiram Rogers, Mr. and Mrs. Harry Staub and daughter Rowena, all of Santa Ana; Mrs. Minnie Lee and daughter Gladys of Brawley.

The Queen Esther Circle of Wintersburg gave a chicken pie supper at the Wintersburg hall Friday evening, and those present declared it to be the most enjoyable event held there for some time. Thirteen dollars was realized, which will be used to help defray the expenses of the members for a week's camping trip at Huntington Beach during the camp meeting. Their chaperone will be Mrs. L. Letson.

Mr. and Mrs. A. F. Rice and daughter Barbara of Smeltzer, and the Misses Melia and Lavena Ross of Bolsa spent Sunday at the beach near San Juan Capistrano and also went through the old mission.

Rev. Kent, pastor of the Wintersburg Methodist Church will spend part of his vacation with his parents at Pasadena.

H. S. Hazeltine of Los Angeles spent Tuesday afternoon at the Golden West ranch at Smeltzer.

A welcome bake was held at Sunset Beach one evening last week in honor of Miss Fannie Cummins of Riverside, who has been the guest of Mrs. Geo. McGirk. A very enjoyable evening was spent playing games and bathing. The guests were Miss Fannie Cummins of Riverside, Mr. and Mrs. Oral Hare of Westminster, Willard Schell, Mr. and Mrs. J. O. Pyle of Smeltzer, John Kettler, Hattie Murdy, Mr. and Mrs. Geo. McGirk, Albert Kettle of Wintersburg.

Mr. and Mrs. B. S. Sharratt of Wintersburg, who have been visiting in Watsonville and other northern points the past three months, returned to their home at Wintersburg last Monday, and report a very pleasant trip.

Mr. and Mrs. H. Weise spent Sunday with Mr. and Mrs. H. A. Beck at San Pedro. Their two sons, Earl and Victor, who have been spending a week with their cousin, Clarence Beck, returned home with their parents.

Mrs. Harry Mansperger of Westminster and her sister, Miss Selma Morrow of Los Angeles, spent Friday with Mrs. Jake Grana at Smeltzer.

Mr. and Mrs. Walter Buehler and daughters, Andrew and Barbara, of Smeltzer spent Sunday at Huntington Beach.

Mrs. W. T. Newland, Jr., of Huntington Beach spent Tuesday with her mother, Mrs. W. E. Gerhart, at Smeltzer.

Mr. and Mrs. H. Schuerman of Santa Ana spent Thursday evening with Mr. and Mrs. H. Weise at Smeltzer.

Charles Houser and his sister, Miss Lennie of Smeltzer, left last week on an auto trip to visit their father at Corcoran, Tulare county. They expect to be gone about a week.

Mr. and Mrs. Harry Woodington and son Donald of Smeltzer spent Sunday at Long Beach.

Mr. and Mrs. Wm. Slater and family of Wintersburg left last week on

NEWTON D. BAKER, secretary of war, and Robert Lansing, secretary of state, outside of the White House grounds after a conference with the President on the Mexican situation. The secretary of state is conducting the negotiations which may lead to the war with Mexico that the secretary of war must fight.

SECY OF WAR SECY OF STATE

an auto trip to Porterville, and expect to go to Yosemite Valley before their return.

Mrs. Jake Grana of Smeltzer spent Saturday and Sunday with her husband, who is working in Los Angeles for a short time.

George Stanley, his mother, Mrs. Stanley, and grandmother, Mrs. Renfro of Fairport, California, arrived in Smeltzer last Friday. Mr. Stanley is working for the Golden West ranch. Mrs. Renfro is past 90 years of age and stood the trip remarkably well. They had to go on the narrow gauge railroad to Reno and then to Sacramento and south that way, which makes a long, tiresome trip for one even younger.

Mrs. Emo Kettler and children of Wintersburg left Tuesday for a three weeks' visit at Oxnard.

H. Woodington of Smeltzer was a business visitor on the Irvine ranch Wednesday.

Wm. Keeman, who is spending the summer at Arrowhead Springs, was at his home at Smeltzer a few days last week and was accompanied by Mr. Hansen.

George Crane of Smeltzer, who recently sold his Ford, will soon receive a new Buick, which he ordered some time ago.

R. L. Draper of Smeltzer, who has been repairing his house, will soon install a filling station on the corner of the Huntington Beach and Smeltzer boulevards. Mr. Draper has also purchased a new and larger caterpillar engine to take the place of the small one he has had for some time, as he is farming several hundred acres this year, and many of the farmers have decided that team work no longer pays and are getting power to do their work. A filling station at this point should be very profitable for there are none on the boulevard between Santa Ana and Huntington Beach.

Miss Lennie Houser of Smeltzer and Miss Dolly Starkey of Garden Grove, who spent several days last week at the San Diego exposition, returned to their respective homes the last of the week, and say the fair is certainly worth seeing.

The Misses Minnie and Bessie Grana of Smeltzer spent last week at Huntington Beach.

Mrs. Henry Ruoff of Wintersburg, who has been quite ill, is reported improving.

Stanley S. Rogers, who is head of the horticultural department at the government station located at Davis, was a luncheon guest of H. Woodington at Smeltzer Tuesday.

Joe Grana, formerly an employee of the Golden West Celerity & Produce Company at Smeltzer, and who went to visit his father and mother in Italy about a year and a half ago, was reported killed by an aeroplane June 10. When Mr. Grana returned to his old home in Europe at the request of his father, who was very ill and soon passed away, he hoped his country would not need his services. Although in the war zone at the time of his death he was not in active service but in a reserve camp. The deceased was 31 years of age and besides his mother in Italy there is one brother, Jake Grana, and a sister, Mrs. Frank Reggo of Smeltzer, and Albert Grana of Los Angeles.

Miss Melia Ross of Bolsa is taking the place of Miss Lennie Houser in the Smeltzer Home Telephone office during the absence of the latter.

Grace and Lillian Gano of Fullerton and spending the week with their aunt, Mrs. Ethel Kelley, at Smeltzer.

Miss Viola Walton of Wintersburg, who has been visiting at Pasadena, returned home Wednesday.

Miss Lillian Kuhn of Fallbrook, who has been spending several weeks with her friend, Miss Ina Clemens, returned to her home last week.

Mr. and Mrs. J. O. Pyle, who have been residing on the Wm. Keseman place at Smeltzer, moved to the place owned by Mrs. S. V. Clark, between Smeltzer and Westminster, last week.

Born—At Wintersburg, July 26, 1916, to Mr. and Mrs. John Stinson, a son.

Born—At Huntington Beach, July 20, 1916, to Mr. and Mrs. Ray Moore of Wintersburg, a 7½-pound daughter.

Born—At Santa Ana, July 25, 1916, to Rev. and Mrs. Kent of Wintersburg, a daughter.

## PERSONAL AND SOCIAL NEWS NOTES FROM ORANGE CITY

ORANGE, July 28.—Miss Flo Scarritt's class of boys from the Presbyterian Sunday school, accompanied by Dr. Speer and Alfred Higgins, returned Wednesday from an outing at Newport Beach.

The bunch was made up as follows: Bronson Buxton, Charles Buxton, Wilbur Carpenter, Marion Drumm, Fred Hobbs, Lloyd Hollister, Donald Milligan, Lyle Richards, Frank Showalter, Hollis Showalter, Harry Shipkey and George Slater.

Friends of Mrs. Cora Milligan, 339 South Orange street, will be pleased to learn that she is steadily recovering from bruises and the shock received in an automobile accident last Sunday.

Rev. William Ruehle left yesterday morning for his home in Oxnard after attending the Lutheran Synod here and visiting relatives. His mother, Mrs. C. Ruehle and children, accompanied him home for a short visit.

Ira Stolp, R. L. Precht, Eugene Livingston and August Klaustmeyer left yesterday morning for Bear Valley, where they will spend the rest of the week.

Miss Muriel Dartt was hostess to a party of friends at a delightful reception Wednesday evening, the affair being marked by very artistic decorations and a pleasant program of entertainment.

Those present were Misses Alta Hoffman, Helen Hoffman, Blanche Eckhart, Alta May, Emma Webster, Clara Ables, Laura Bradley, Gladys Tinsley and Muriel Dartt; Messrs. Donald Wilbur, George Nelson, Dick Jones, Arthur Streech, Edgar Webster, Lester Lamen and Marshall Stricker.

## SNEEZERS MAKE READY FOR '16 CONVENTION

BETHLEHEM, N. H., July 27.—No body knows how many members of the National Hay Fever Association will attend the annual convention up here in the White mountains August 31. But there are 200,000 sneezers, sneezers and sneezers enrolled and a good many thousand of them will be here, from all over the country.

According to the report of President John R. Pinover, these sneeze-ridden sneezers sneeze some seventy-three sneezes a day, for an average of forty-one sneezes a year. This gives us 6 billion, 3 million, 200 thousand sneezes to look forward to this year. Most of these young explosions will be usual wait until they catch their victims in the middle of the preacher's prayer or some place like that before demanding expression.

In volume of noise these sneezes

will be equal to seventeen European wars and a municipal trolley system. They will necessitate the use of six handkerchiefs per day per sneezer. A number of 50,000,000 hankies to register the hay fever vote of ayes and noes for the season.

Present and sneezing at the convention will be Henry Altman of East Eighty-seventh street, New York, the noblest sneezer of them all. Altman has tried 100 remedies, including psycho-analysis, suggestive therapy, Bahamism, Yozilism, astrology, osteopathy, bleeding, hypnotism, auto-suggestion and automobilism, singing, science and scores of others.

A number of rose feverites will be among the hay, the hay last year deciding by a straw vote to welcome them.

The case of the Texas member who sued his insurance company for double indemnity because he suffered complete disability for two weeks as the result of being hit by a sneeze germ while riding on a train, will be discussed.

## 20,000 SIGN DANCE PETITIONS IN L. A.

LOS ANGELES, July 28.—Members of the citizens' committee estimated Wednesday afternoon that approximately 20,000 signatures of qualified electors have been secured on the initiative petitions providing for the submission to the people of an initiative ordinance permitting regulated dancing in the first-class cafes and hotels of Los Angeles.

It was announced that the force of circulators under the supervision of John P. Steele are securing an average of 3000 signers to the petitions daily.

By today, when the citizens' committee will appear before the city council to urge immediate action on the question of permitting cafe dancing between now and when the matter is submitted to the people, the committee hopes to be able to inform the council that at least 25,000 qualified voters, including both men and women, have signed the petitions.

## HUNDREDS OF DEER IN NORTH OF STATE ARE KILLED BY DISEASE

SACRAMENTO, July 27.—Deer are dying by hundreds in the Northern Coast counties, particularly Humboldt and Mendocino, according to reports received by Deputy Fish and Game Commissioner George Nale. Bladder worm is said to be the disease which is killing the deer. Throughout the state the deer are generally plentiful, and sportsmen are looking forward to a good season.

## HER HOME NO LONGER CHILDLESS

Operation not Necessary after  
Taking the Great Medicine  
for Women.

Miller's Falls, Mass.—"Doctors said I had displacement very badly and I would have to have an operation. I had a soreness in both sides and a pulling sensation in my right side. I could not do much work the pain was so bad. I was also troubled with irregularity and other weaknesses. My blood was poor. We had been married four years and had no children."

After using Lydia E. Pinkham's Vegetable Compound and Blood Purifier I became well and strong and was saved from the operation. We are now the parents of a big baby girl and I praise your remedies to others and give you permission to publish my letter."—Mrs. JOSEPH GUILBAULT, JR., Bridge Street, Miller's Falls, Mass.

Lydia E. Pinkham's Vegetable Compound is famous for restoring women to normal health and strength. When this is done wives no longer despair of having children.

A woman should be reluctant to submit to a surgical operation until she has given Lydia E. Pinkham's Vegetable Compound a fair trial. If you have a case that needs special advice, write the Lydia E. Pinkham Medicine Co. (Confidential), Lynn, Mass. It is free and always helpful.

## Free Illustrated Lecture

on almond growing in the Templeton-Paso Robles district, by Mr. E. W. Parker every day, promptly at 11 o'clock a. m., at the Chamber of Commerce of Los Angeles. You will be well repaid for your half hour's time listening to his interesting and instructive talk illustrated with many views of orchards, individual trees and natural scenes of wonderful beauty. Since I first told you through the medium of this paper that the Templeton-Paso Robles country possessed a combination of conditions—climate, soil, quality of soil and abundance of rainfall—wide variety of products, market facilities and social advantages—possessed by no other one locality in the state, many new people have located there, several thousand acres of new orchards have been planted and through the publicity given the Atascadero Colony the district is fast becoming nationally famous. It's a fine place for a home, a good place to make money, land prices still low. Now is a good time to buy large or small. I am sure if you drop me a one cent postal with your name and address plainly written, the booklet I will send you will give you much valuable information.

Dreadnaught, E.L.C. .... \$6.05  
Sunny South ..... 5.65  
Standard ..... 5.15

BOSTON Market  
BOSTON, July 27.—Five cars sold. Markets doing better.

LOS ANGELES PRODUCE MARKET

The hot weather throughout most parts of the United States has concentrated the interest of the public on citrus fruits to the detriment of other varieties. Concord grapes were sliced down to \$1.25 and \$1.35 a crate yesterday, this being a reduction of 50 cents a crate as compared to previous quotations.

In the vegetable list peas are much stronger and the best grade of telephones are now bringing 6 cents a pound. Green chile, however, is cheaper at 7 to 8 cents a pound, and the glut in the tomato market still continues.

CURRENT PRICES

[The following market prices on poultry and eggs, fruits and vegetables are compiled daily for the Register, based on the quotations prevailing on the Los Angeles produce exchange for the business day preceding. Every effort is made to keep these quotations accurate and down to the latest possible available figures.]

CITRUS FRUIT

Navel, fancy, \$2.50 to \$2.75; Valencia, \$2.15 to \$2.35; packed, \$4.25 to \$4.50; juice, \$1.50; grapefruit, \$2.50 to \$3.00; lemons, \$1 basket.

GREEN VEGETABLES

[These quotations are for first-class shipping stock.]  
Alligator pepper, doz. .... 60¢  
Artichokes, per doz. .... 50¢ to 75¢  
Beans, Kentucky Wonder ..... 20¢  
Beans, wax, 10 ..... 31¢ to 64¢  
Beans, lima, lb. .... 23¢  
Cabbage ..... sack, 90¢ to 1.00; lb. 1.  
Carrots, doz. .... 30¢  
Eggplant ..... 41¢ to 51¢

GOING SOME

Flammarion takes his eye from the telescope long enough to announce that the sidereal system travels through space at the rate of 22,500 miles a minute.

If this is true, there seems to be nothing to do but to felicitate ourselves on the capaciousness of space.

Also, the thought arises that were one accidentally to step out of the system he would have to hustle to overtake it.

Dying Out

The birth rate of this country, as regards the public prints, does not keep up with the death rate.

Exact figures are not at hand, but if this sort of thing should continue indefinitely, the man who writes for a living may have to go around with a bucket of paste and glue his stuff to the bill boards.

The world will be a strange and lonesome place when the palladium of our liberties has ceased to do business at the old stand.

Go to It

Dr. Woods Hutchinson wants to know why we should not eat insects. He may eat them if he desires. Honestly, they don't look good to us.

NOTICE INVITING BIDS

Santa Ana, Calif., July 18, 1916. In pursuance of a resolution of the Board of Supervisors of the County of Orange, Cal., adopted July 13, 1916, directing this notice, notice is hereby given that the said Board will receive bids for the construction of a 200-foot five-span timber bridge across Santiago Creek on Santiago Blvd., about two and one-half miles from the City of Santa Ana, and marked "Bid for Santiago Creek Bridge."

The work must be done in accordance with the profiles, plans and specifications adopted by the Board of Supervisors on file in the office of said Board and in the office of the County Surveyor, in the County House.

Each bidder must submit with his proposal a check certified by a responsible bank and payable to the order of the County of Orange, for an amount not less than ten per cent of the aggregate sum of the bid, as guaranteed by the bidder, and the proposed contract if the same is awarded to him, and the said check shall become the property of the county.

The amount of the bond to be given to secure a faithful performance of the contract for said work shall be 25 per cent of the contract price thereof, and an additional bond in an amount equal to 50 per cent of the contract price for said work shall be given to secure the payment of claims for any material or supplies furnished for the performance of the work contracted to be done by the Contractor or any work or labor of any kind done thereon, and also will be required to furnish a certificate that he carries compensation insurance covering all his employees upon work to be done under contract which may be entered into between him and the said county for the building of said bridge.

Under these specifications the County of Orange will furnish the cement, f. o. b. cars Villa Park.

Copies will be furnished intending bidders upon application to the County Surveyor of said County.

The Board of Supervisors reserves the right to reject any and all bids.

By order of the Board of Supervisors of the County of Orange, State of California.

W. B. WILLIAMS, County Clerk.

# NEWS BUDGET FROM TALBERT

TALBERT, July 26.—Hazel Brady, W. Harpold, Indian motorcycle agent of Colton, and R. Dearmond, R. Crawford, J. Herrek of Colton, Ross woods and R. Eaton of Bloomington, paid a visit to Mr. George Sunday at the Talbert garage.

The Sunday services and Sunday school will be discontinued until the Brown and Curry meetings are over at Huntington Beach.

Mr. Plavan and his son, Paul, motored to Trabuca canyon Saturday.

I. Oka and wife were made happy Saturday morning by the arrival of a 9-pound son.

Misses Alma and Wilma Plavan, with the Randall family, spent Sunday at Laguna Beach.

Paul Lacey returned Saturday from Portland, Oregon, where he has been on a two-weeks' vacation.

Miss Youngling of Fairview is spending the week with Mrs. Nimmo.

Mrs. Mary Bushard is reported better and was able to sit up a short time Saturday.

A. Bonfoy went to Corona Monday to visit his son.

Will Planchon spent Sunday visiting friends at Orange.

Mr. and Mrs. Swift of Santa Ana spent Tuesday at the home of their son, A. F. Swift.

A. R. Randall spent the day at the Plavan home Sunday.

Mrs. A. L. Reed of Whittier was in the Talbert vicinity last week looking after her property.

Ray Wardlow and wife motored to Los Angeles Sunday.

Miss Vivian Stahl of Los Angeles is spending the week with Della Giesler.

Mrs. B. George returned home from the hospital Saturday, where she had her tonsils removed. She is getting along nicely.

Rev. Howell, the presiding elder, held the third quarterly conference Sunday evening. The attendance was good.

Hazel Brady is spending a week with her grandparents in Fullerton.

Mrs. Sam Clapp went with Frank Clapp and family of Santa Ana, the latter part of last week on a touring trip. They visited Universal City and watched them taking pictures. It was most interesting. One could spend many hours there and see something new and exciting at all times.

Charles Priest, the travelling sales-

## Stopping the Camera to Tell a Story

VALENTINE GRANT AND SIDNEY OLCOTT, STAR AND DIRECTOR FOR FAMOUS PLAYERS IN PARAMOUNT PICTURES.

People hesitate in the waltz and the 20th Century Limited seemingly does at a few places on its way to Chicago, but it's even more rare for a director to stop in the midst of the making of a picture, and then for the purpose of springing some Irish witicism on a star. But that's what happened when Sidney Olcott, director, did while making "The Innocent Lie," in which Valentine Grant is starred. That's why the picture was taken.

Speaking of fun and rests and hesitations in photography work, it is apropos to remark that holding down a position in motion pictures is not a cinch. One little star said that "if you are looking for work, select something else like translating the Bible into Chinese, looting the moon in an aeroplane, composing a brand new opera, stopping the war in Europe or making the dove of peace settle down for life in Mexico; but don't class the job of a screen star with any of these as a 'cinch.'"

man for the Los Angeles Heavy Hardware Company, paid a visit to the blacksmith shops of Talbert Monday.

The Talbert ditch district dredger was moved from ditch No. 4 to ditch No. 2, one-half mile east of the Newport pumping plant.

W. T. Brady and family of Hollywood spent the week end with Mr. Brady's sister, Mrs. S. E. Talbert. His mother, Mrs. M. L. Thorman, who makes her home at the Talbert ranch, accompanied them home. She will also spend a few days with her daughter, Mrs. J. E. Pettit, in Los Angeles.

Leo Borchard, Stephen Fox and S. E. Talbert motored to San Fernando Tuesday looking over the beet fields. There are about 18,000 acres of sugar beets, which the farmers are beginning to plow and haul. The beets are long and smooth and in most places are fine, but in other parts there was not sufficient water for irrigating, so the crops do not look so well.

Walter Lamb and family returned Tuesday from their camping trip to San Juan Capistrano, where they have been for the past two weeks.

Bids for \$20,000 bonds, which the Talbert Drainage District voted for about a month ago, will be opened Saturday morning at 9:30 o'clock at the office over the Orange County Savings Bank in rooms 1 and 2.

### SO. CAL. SECRETARIES TO GATHER IN L. A.

LOS ANGELES, July 28.—The secretaries and presidents of Southern California Chamber of Commerce will meet in Los Angeles tomorrow.

The Secretaries' Association of the Four Counties will hold its regular meeting in the morning, when the presidents of fifty chambers of commerce will be guests.

In the afternoon there will be a lunch at the Hollenbeck Hotel, a visit to University City, and a dip in the ocean, and in the evening a special program in the new Schleuter dance pavilion.

### BAD WEATHER SPOILS GERMAN CROPS, REPORT

LONDON, July 27.—An Exchange Telegram dispatch from The Hague says:

"The price of horses in Germany has doubled. Farmers are making fortunes selling rabbits at 25 marks each. The bad weather is spoiling the crops."

## How Russia Organized and Bridged Disaster

BY WILLIAM PHILIP SIMMS (United Press Staff Correspondent.)

(Note.—This second of Simms' seven stories on the marvelous development of the Russian common people under war conditions tells what happened when the government asked the people's organization for 7,500,000 suits of underwear for the soldiers, quick.)

PETROGRAD, June 13 (by mail).—There are two mighty armies in Russia. One works in the front line trenches, shoots and charges bayonets. The other works back of the line and furnishes the front line what it needs. One is an army of soldiers. The other is an army of citizens. But both are under the orders of the General Staff. The situation is unique in history.

The main corps of this citizen army is known as the "All-Russian Zemstvo Union," and no other nation in the world boasts anything like it. If the troops need new fur coats the General Staff tells the Zemstvo Union and the Zemstvo Union provides them. Or maybe the Staff asks for socks and underwear, or boots, or bridges, or daggers, or bath-tubs, or tannin, or chopaxes. Whatever in reason it asks for, it gets.

Soldiers and citizens are working hand in hand. This statement is literal, not merely a figure of speech.

The Zemstvo—pronounced "Zem-stro"—came into being in 1864, or three years after the serfs were freed and the land divided. It began very modestly and developed slowly, members being elected from three classes: peasants, the landed gentry, and the urbanites owning shops, factories or other property. Originally a Zemstvo composed of say sixty members, averaged about twenty peasants, twenty gentry and twenty town property owners, but in 1899 the gentry were given by law what by the very nature of things they had from the start—a preponderant voice.

Russia is divided into fifty-one provinces, these into districts averaging about ten districts to the province. At present thirty-nine provinces and about 350 districts have Zemstvo organizations.

The district institution once a year sends delegates to a ten-day provincial Zemstvo at which the work of the past year is reviewed and the work for the coming year co-ordinated. Further, a provincial board of four men is named, these to devote their entire time to this work. The ordinary member of the Zemstvo receives no pay. The four board members are on salary as are the four members of a similar district board who do nothing else but supervise district work.

The Zemstvo has but slight legislative functions—levying local taxes, etc., and until the war its activities were confined to four spheres—working the roads, supervising the schools, aiding farmers with advice and looking after the hospitals—the primary needs of country districts.

Restricted in scope though the Zemstvo was, it was nevertheless the pre-eminence of the people. It furnished the peasants with their first means of participating in public work. Side by side with their former masters, these farmers, newly out of serfdom, elected their Zemstvo representatives and labored for the community and for Russia.

Such was the Zemstvo at the beginning of the war.

On August 12, 1914, less than two weeks from the commencement of hostilities a general meeting of delegates elected by the Provincial Zemstvos was held in Moscow. It was then and there decided to form the "All-Russian Zemstvo Union" for relief work among sick and wounded soldiers. And every Zemstvo joined in, save one, this solitary abstainer preferring to work independently.

"Here we are; use us!" said the Zemstvo people to the government, and the government accepted. They were to be under the orders of the War Department and available only for work in the interior. The limitation was put upon them; they did not specify the limitation.

But the restriction did not hold. The army needed doctors, nurses, hospitals. The Zemstvo had been in the hospital business for forty years and it went to the army's aid upon the very field of battle and in the front line trenches.

After this things moved rapidly. Hospitals in the interior were organized. So were first-aid, distributing centers, bases. "Front Brigades" were formed for handling wounded, sanitary trains equipped. During October and November, 1914, the Union sent the Serbian army 215,000 furs and other warm garments, paid for by the Russian government but bought by the Zemstvo and handled by them.

In October, 1914, General Shuvayev, then head of the commissary, (now minister of war) asked the Union to make underwear for his men. The Union replied by delivering to the army before the end of the month over 7,500,000 complete suits! And this was only a side order. The Union did this without slacking up on any of its other jobs.

How was it done? It was very simple. The Zemstvo is a people's organization. Peasants are in it. So the Zemstvo simply went to a lot of poor women it had known for a long time and said:

"Make us these articles. We want them for the army."

And over night, almost, the articles were cut and sewed by Russian seamstresses.

Another order, similarly executed, was for wearing apparel to the tune of seventeen million pieces. Russian co-operative societies in a large measure filled these orders, societies embracing at least half the population of Russia. And Russia numbers 170,000,000 souls! So you see quite a small crowd is working for the country.

### EXAMINING 200,000 FEET, ARMY MAN'S JOB

EL PASO, July 27.—As foot inspector of militia and regulars, Major William Reno of the army medical corps today is one of the busiest men in the service, looking after 200,000 feet.

Going to Los Angeles take Crown Stages every 1/2 hour, round trip \$1.00.

# BOLSA BUDGET OF NEWS NOTES

BOLSA, July 28.—Mr. and Mrs. Charles Blankenbecker and Miss Della Blankenbecker motored to Irvine Sunday, where they spent the day with Mr. and Mrs. Grover Stroud.

Mr. and Mrs. Earl Gardner spent Saturday afternoon at Santa Ana.

### WILL MY CHILD TAKE DR. KING'S NEW DISCOVERY?

This best answer is Dr. King's New Discovery itself. It's a pleasant sweet syrup, easy to take. It contains the medicines which years of experience have proven best for Coughs and Colds. Those who have used Dr. King's New Discovery longest are its best friends. Besides every bottle is guaranteed. If you don't get satisfaction you get your money back. Buy a bottle, use as directed. Keep what is left for Cough and Cold insurance.

## PROGRESS AND PROBLEMS

Have you problems? Is your progress as great as you wish? Don't you want a better education?

Two men have offered their son's services free to me for the educational advantages to be gained from familiarity with my business. The same opportunity comes to each of you to improve your faculties by comparing values in the well selected stock of our Groceries.

Men and women, boys and girls make more of a business of your shopping. Save your pennies for your bank account.

One small boy who does the family buying has saved \$7.00 in a short time. Another boy of three and a girl of two in the same family have saved two dollars apiece in six months. And all this by saving the pennies. At this rate their bank account will take them through college.

Don't you want to go to school? Save your pennies and see what they will do.
